Robert R. Redfield

Seattle Mobile Phone Repair:

Careful Interventions Maximilian Krüger, 2024-03-29 In 2015 and 2016 more than a million people sought refuge from conflict and hardships in Germany While the response was ambivalent across the country large networks of supporters formed offering various kinds of assistance to the arriving persons This book takes these developments as a starting point It reports on an HCI project building on the emancipatory traditions of Participatory Design and the Socio Informatics approach aiming to develop assistive technologies for forced migrants as well as their supporters It focusses on the design process and reflects on the nature of intervening through participatory design in matters of migration and arrival The work draws on feminist conceptualisations of care and outlines how care and participation interacted in this context to support the longterm maintenance of the design results but also how care relations between the different participant groups undermined the democratic aims of participation It draws out preliminary lessons for an interventionist HCI practice

The Social Life of Skills in the Global South Trent Brown, Geert De Neve, 2025-06-23 This book expands understandings of how skills are defined acquired and utilized in Global South contexts Skills and skill development are increasingly prominent focal points for governments in the Global South and international development bodies Yet policymakers and practitioners promoting skill development often overlook the everyday realities of how skills are learned and acquired and how they are deployed and valued by individuals and communities Frequently they ignore the social and institutional barriers that prevent people from using their skills in meaningful or remunerative ways By focusing on the the social life of skills the chapters in this volume invite a broader conceptualization of skills their development and their application in Global South contexts They explore four main areas of theorization and practice 1 The social and political processes by which certain types of work and people are labeled as skilled or unskilled 2 The different ways people acquire skills formal informal and nonformal 3 The political economy of skills and skill development and their imbrication in forms of exploitation and intersecting inequalities 4 The role of skills in the expression of aspirations identities and agency This book will appeal to students and researchers in the fields of development studies sociology anthropology education and labor studies particularly those focusing on the Global South It will also appeal to policymakers practitioners and development organizations working on skill development and vocational training The chapters in this book were originally published as a special issue of *Third World Quarterly* *Pacific Telephone Magazine*, 1948
