Secret Choices A Tale Of Healing 1:

These Things Hidden Heather Gudenkauf, 2013-10-29 Allison Glenn tried to hide what happened that night and failed. The consequence: A prison sentence. Now she's free. But secrets have a way of keeping you locked up. When teenager Allison Glenn is sent to prison for a heinous crime, she leaves behind her reputation as Linden Falls' golden girl forever. Her parents deny the existence of their once perfect child. Her former friends exult her downfall. Her sister Brynn faces whispered rumors every day in the hallways of their small Iowa high school. It's Brynn, shy, quiet Brynn, who carries the burden of what really happened that night. All she wants is to forget Allison and the past that haunts her. But then Allison is released to a halfway house and is more determined than ever to speak with her estranged sister. Now their legacy of secrets is focused on one little boy. And if the truth is revealed, the consequences will be unimaginable for the adoptive mother who loves him, the girl who tried to protect him, and the two sisters who hold the key to all that is hidden.

The Three "Only" Things Robert Moss, 2010-10-06 Have you ever said something was only a dream, only a coincidence, or only your imagination? In this book, you'll discover that these "only" things can be keys to finding and living your bigger story. You'll learn to tap into the nine powers of dreaming, the nine rules of coincidence, and the seven uses of imagination. You'll be inspired by stories of how innovators and world changers have used these gifts, and you'll learn wonderful games to help you access your intuition, heal yourself, and bring juice to your everyday life. When we claim the power of the Three Only Things, we reclaim tools that are profoundly simple yet have the power to remake our lives and the world.

Departure Stories Elisa Bernick, 2022-10-04 We weren't religious per se. The most frequent mention of God in our house was my mother yelling "Goddammit." Elisa Bernick grew up different: i.e. Jewish in the white Christian suburb of New Hope, Minnesota, during the 1960s and early 1970s. At the center of her world was her mother, Arlene, who was a foul-mouthed, red-headed suburban Samson who ultimately shook the walls of their family until it collapsed. Poignant and provocative, *Departure Stories* peers through the broader lens of Minnesota's recent history to reveal an intergenerational journey through trauma that unraveled the Bernick family and many others. Deftly interweaving reporting, archival material, memoir, jokes, scrapbook fragments, personal commentary, and one very special Waikiki Meatballs recipe, Bernick explores how the invisible baggage of place and memory, Minnesota's uniquely antisemitic history, and the cultural shifts of feminism and changing marital expectations contributed to her family's eventual implosion. *Departure Stories* Betty Crocker Made Matzoh Balls and other lies is a personal exploration of erasure, immigrants, and exiles that examines the ways departures from places, families, and memory have far-reaching effects.

Tales Things Tell Finbarr Barry Flood, Beate Fricke, 2023-11-21 How can we understand the past in the absence of written records? Pre-modern histories of cross-cultural exchange pose a particular problem for medieval historians. They are marked by the long-distance mobility of concepts, individuals, and materials, and many of them cannot be reconstructed from the standard source texts on which historians usually depend. They exist without named makers, both outside and beyond.

official documents and court chronicles The same is true of artisans responsible for crafting objects whose circulation and reception defined aesthetic economic and technological networks that may not have conformed to political or sectarian boundaries Authored by two leading medieval historians of the Middle East Africa and Europe *Object Lessons* addresses the gaps in medieval sources and modern scholarship arguing for the archival value of objects images and monuments Flood and Fricke examine six case studies that focus on the twelfth and thirteenth centuries From the stone carvings at the churches of Lalibela Ethiopia which have no textual documentation to medicinal bowls from Iraq for which some data can be gathered from unassociated but contemporary sources these studies show how imagery and objects traveled across continents The authors connect the histories of medieval Europe Africa and west Asia and raise significant questions about out of place objects and how in the absence of substantial archival material we might write their histories While there have been many publications on the histories of global circulation most of them focus on the early modern period in Europe By moving away from histories with abundant written archival material *Object Lessons* ventures far beyond the narratives of Europe and into complex cross cultural and intercontinental histories of objects and images *Healing Is a Choice* Stephen

Annas, 1998 This book is a passionate critique of the shallowness of choice rhetoric used to camouflage critical personal and public policy issues in contemporary debates in American medicine Our public discourse on life and death from health care to medical research and from risky

behavior to assisted suicide is dominated by the market model of consumerism augmented by appeals to individual freedom. In fact however in most cases there is no real choice left for individuals to make the important choices have been made by others and the illusion of choice fosters complacency. Knee jerk libertarianism leads to a superficial consumer culture and life choices valued only by their monetary value. Some Choice uses the cases of cloning drive through deliveries emergency medicine genetic privacy human experimentation tobacco control and physician assisted suicide among others to suggest ways in which we can break through our vapid and superficial public discourse on life and death issues and begin to engage in a public dialogue that enriches our lives and society rather than cheapens them. George Annas is one of the most widely recognized names in current bioethics debates. His goal in this new book is to help open a national and international dialogue that sees the search for universal human rights as valuable and international cooperation to define protect and promote them as central to life.

Making Room for Mystery David M. Holley, 2025-07-25 We sometimes hear about events that seem too strange to fit with our usual ways of thinking about what can happen Someone perceives an appearance of a loved one in danger at the same moment the person is undergoing a crisis at a distant location A patient who has long ago lost all cognitive functioning suddenly begins to interact with others for a short time before dying Someone dreams of barely avoiding an accident and the near miss occurs the next day Some reports of strange occurrences can be explained away but repeatedly hearing about such things from credible sources can lead us to wonder whether the world is more mysterious than the predictable order we have taken for granted This book considers what it would mean for Christians to accept that the natural order has hidden depths that can produce strange phenomena How might it affect our understanding of such things as divine guidance or petitionary prayer or extraordinary healings How would we think about God s action in the world if our understanding of the created order allowed more room for mystery
