teachings **Peace Love Yoga** Andrea R. Jain, 2020 Engaging with the growing popular and academic interest in the spiritual but not religious Andrea R Jain explores the connections between the practices of global spirituality and aspects of neoliberal capitalism in Peace Love Yoga Personal growth self care and transformation are all tropes in the narrative of the spiritual identity Jain is concerned with This spirituality is usually depicted as firmly countercultural the term alternative alternative health alternative medicine alternative spiritualities is omnipresent To the contrary Jain argues spiritual commodities entrepreneurs and consumers are quite mainstream and sometimes even conservative and nationalistic Ranging from the transnational to the economic to the activist Jain refuses the single narrative focus of most works on the SBNR human phenomena that can be analyzed through a single lens or narrative are few and far between and existing research in this area too often yields a suspiciously tidy story The heart of the book includes sophisticated analyses of two politically divergent but equally entrepreneurial and global capitalist yoga gurus athleisure apparel corporations such as lululemon that successfully market consumer goods as a purchased commitment to social justice and therapeutically focused applications of spirituality that concentrate on healing the broken person rather than undermining the system that broke that person in the first place Many spiritual commodities corporations and entrepreneurs Jain suggests do actually acknowledge the problems of neoliberal capitalism and in fact subvert them but they subvert them through mere gestures From provocative taglines printed across t shirts or packaging to calls for conscious capitalism commodification serves as a strategy through which subversion itself is colonized Yoga Daren Callahan, 2015-01-28 Millions of people practice some form of yoga but they often do so without a clear understanding of its history traditions and purposes This comprehensive bibliography designed to assist researchers practitioners and general readers in navigating the extensive yoga literature lists and comments upon English language yoga texts published since 1981 It includes entries for more than 2 400 scholarly as well as popular works manuals original Sanskrit source text translations conference proceedings doctoral dissertations and master s theses Entries are arranged alphabetically by author for easy access while thorough author title and subject indexes will help readers find books of interest Yoga Body Mark Singleton, 2010-02-25 Most people assume that postural yoga is an ancient Indian tradition But in fact as Singleton shows this type of yoga is quite a recent development Singleton presents a study of the origins of postural yoga challenging many current notions about its nature and origins Hinduism in the Modern World Brian A. Hatcher, 2015-10-05 Hinduism in the Modern World presents a new and unprecedented attempt to survey the nature range and significance of modern and contemporary Hinduism in South Asia and the global diaspora Organized to reflect the direction of recent scholarly research this volume breaks with earlier texts on this subject by seeking to overcome a misleading dichotomy between an elite intellectualist modern Hinduism and the rest of what has so often been misleadingly termed traditional or popular Hinduism Without neglecting the significance of modern reformist visions of Hinduism this book reconceptualizes the meaning of modern Hinduism both by expanding its content and by situating its expression within

a larger framework of history ethnography and contemporary critical theory This volume equips undergraduate readers with the tools necessary to appreciate the richness and diversity of Hinduism as it has developed during the past two centuries

The New Age Movement Margrethe Løøv, 2024-10-02 This Element introduces New Age religion The New Age Movement is a loosely cohesive conglomerate of different spiritual currents with no common founder leader institution dogma or scripture Because of its diversity it may appear amorphous and incoherent at first sight This Element emphasizes both the unity and diversity of the New Age It approaches the phenomenon from three main perspectives 1 the historical development of New Age religion 2 ideas and practices associated with the New Age and 3 the social organization of the New Age movement It thus provides a wide angle view that sketches out some of the main patterns that emerge from a mosaic of individual currents and actors associated with the New Age It also highlights some of the differences within the movement by exploring some ideas and practices in depth *Selling Yoga* Andrea R. Jain, 2015 *Selling Yoga* looks at how modern yoga developed into the self developmental products and services that are widely consumed across the world today
