revolution for Africa Hendriks, Sheryl L.,2016-10-17 Focusing the 2015 Annual Trends and Outlook Report ATOR on nutrition will contribute to a broader understanding of the critical role of nutrition in achieving international continental and national economic growth targets through agriculture food security and nutrition This report presents information and analysis in support of evidence based policy making that should inform the second generation of CAADP national investment plans now being developed This is an important moment for shaping the region s future and ensuring that the much needed agriculture led growth and development agenda can simultaneously deliver on improving nutrition saving lives improving productivity

and health and curbing nutrition related diseases and the associated public health expenditures These investment plans should address not only the usual elements of undernutrition but also widespread micronutrient deficiencies termed hidden hunger and the growing problem of overweight and obesity that is associated with economic growth     Boosting growth to end hunger by 2025: The role of social protection Wouterse, Fleur Stephanie,Taffesse, Alemayehu Seyoum,2018-10-23 Social protection programs public or private initiatives that aid the poor and protect the vulnerable against livelihood risks can effectively be used to assist those trapped or at the risk of being trapped in chronic poverty These programs aim to address chronic poverty through redistribution and protect vulnerable households from falling below the poverty line Although investments in social protection programs are often motivated by equity concerns they can also contribute to economic growth by for example encouraging savings creating community assets and addressing market imperfections Despite their potential and proliferation not enough is known about social protection programs in Africa The 2017 2018 Annual Trends and Outlook Report ATOR reduces this knowledge gap by focusing on the potential of such programs on the continent and the corresponding opportunities and challenges The chapters of the Report highlight the benefits of these programs not only to their direct recipients but also others in the community through spillover effects They also underscore the importance of appropriate design and sustainability to fully realize the potential of social protection programs     Political Handbook of the World 2015 Tom Lansford,2015-03-24 The Political Handbook of the World provides timely thorough and accurate political information with more in depth coverage of current political controversies than any other reference guide The updated 2015 edition will continue to be the most authoritative source for finding complete facts and analysis on each country s governmental and political makeup Compiling in one place more than 200 entries on countries and territories throughout the world this volume is renowned for its extensive coverage of all major and minor political parties and groups in each political system It also provides names of key ambassadors and international memberships of each country plus detailed profiles of more than 30 intergovernmental organizations and UN agencies And this annual update includes coverage of current events issues crises and controversies from the course of this year     *A thriving agricultural sector in a changing climate* De Pinto, Alessandro,Ulimwengu, John M.,2017-10-25 Given its heavy reliance on rainfed agriculture and projected climatic and weather changes SSA faces multidimensional challenges in ensuring food and nutrition security as well as preserving its ecosystems In this regard climate smart agriculture CSA can play an important role in addressing the interlinked challenges of food security and climate change CSA practices aim to achieve three closely related objectives sustainably increase agricultural productivity adapt to climate change and mitigate greenhouse gas GHG emissions The CSA objectives directly contribute to achieving the 2014 Malabo Declaration goals which include commitments to 1 end hunger in Africa by 2025 2 halve poverty by 2025 through inclusive agricultural growth and transformation and 3 enhance the resilience of livelihoods and production systems to climate variability and other related risks These linkages underscore the importance of including

CSA in country and regional plans to achieve overarching development objectives in Africa in particular food security and poverty reduction The 2016 Annual Trends and Outlook Report ATOR examines the contribution of CSA to meeting Malabo Declaration goals by taking stock of current knowledge on the effects of climate change reviewing existing evidence of the effectiveness of various CSA strategies and discussing examples of CSA based practices and tools for developing evidence based policies and programs
