The overall goal of my research for this project is the identification of Disney influences on the formulation of parent-child relationships at an early stage. If these influences can be identified—which I claim they are present in Disney multimedia—then how do the variety of relationships depicted play on the psyche of a child? Wooden—professors at Missouri State University, wrote this article to offer a unique outlook on the argument of Disney's "teachings" and the reason behind their thought process. The key question asked in this work is as follows: Does the feminizing of male also-rans (and the simultaneous
