Summarize the studies and theories/ideas of the child development researchers below. Use the "Working with Young Children" and "Child Care Today" textbooks to complete the task.

| Researcher | Theories/Ideas | Significance of Ideas |
|-------------------|--|---|
| Erik Erikson | the psychosocial theory | his theory provided new insights into the formation of a healthy personality. it emphasises the social and emotional aspects of growth. |
| Sigmund Freud | psychoanalyst, freud believed the emotional or psychological problems of adults are connected to how their parents and care providers met their basic needs as children | childhood is much more important than previously thought experiences in childhood can profound long lasting effects on adult life. |
| Arnold Gesell | His maturation theory asserts that young children's development occurs in stages that are not strictly correlated to age. | Through his observations and research, Gesell concluded that children go through predictable stages of growth. |
| Lawrence Kohlberg | organized development stages by how children learn right from wrong. Said young children choose what seems in their best interests but teens are influenced by their parents and friends | knowing a child's current development stage allows you to understand his or her reasons for a decision and to help him or her learn right from wrong. |
| Abraham Maslow | known for his theory on the hierarchy of needs, the lowest and most basic needs are physical, such as food and | children rely completely on their care providers to fulfill their basic needs. |
