Committee on Public Works,1965 Fossil Energy Research Program of the Energy Research and Development Administration United States. Energy Research and Development Administration. Assistant Administrator for Fossil Energy,1976 E-Learning Practice in Higher Education: A Mixed-Method Comparative Analysis Sayed Hadi Sadeghi,2017-09-13 This book investigates e learning practices at American and Australian institutes of higher learning their status quo best practice examples and remaining issues Utilizing a mixed methods approach it combines three studies two using quantitative methods and a third using qualitative methods in order to gauge the status quo of e learning The first study addresses the dominant cultural dimensions revealing that the main explanation for the results may be the fact that most suppliers of the Australian university s e learning system had an East Asian cultural background and predominantly traditional perspectives on learning In Study 2 the findings indicate that the levels of e learning practice at the Australian and US universities surveyed were above average although the American university was ranked higher in terms of e learning practices In turn Study 3 investigates current problems in e learning practice on the basis of four aspects pedagogy culture technology and e practice and determines that cultural sensitivity and effective cultural practices show room for improvement while key technological challenges and issues like faculty polices quality LMS and online support need to be overcome In general the outcomes suggest that it is essential for the Australian university surveyed to further develop and update its e learning system especially in terms of e practice using the same technologies that pioneering countries like America are employing Indeed the combination of adopting patterns successfully used in other countries and adjusting them to the Australian culture represents the best strategy for educational decision and policy makers This book provides the basis for designing a culture sensitive framework for higher education e learning practice in American and Australian contexts Moreover students and teachers experiences with e learning in a comparative higher education context can help higher education instructors and university managers to understand how e learning relates to and can be integrated with other experiences of learning and teaching

Using Psychometrics Robert

Edenborough,1999 Despite the increasing use of Psychometric Tests there is still a great deal of misapprehension about them and indeed much scepticism about their viability Robert Edenborough provides a detailed and practical guide to the use of tests clearly showing how powerful and effective they can be in aiding staff selection and development For any manager or personnel specialist considering using tests Using Pscyometrics illustrates how they can and should be effectively integrated with other assessment methods Seeking to de mystify psychometric testing on the one hand on the other point out the pitfalls of ill considered use the author shows What psychometric tests are and when and how to use them How to understand the different types of test and what they can contribute How to choose the most appropriate tests for specific areas of application The legal professional and commercial regulatory framework For personnel HR professionals and line managers alike Using Psychometrics will provide an invaluable introduction to this increasingly popular method of assessment Directory of U.S. Government Inspection Services and Testing Laboratories ,1967-04 *Recruitment tools* Punam Agarwal,2020-05-01 This book is on Recruitment Process to make it interesting by using recruitment tools for selection process as a whole for small and big companies The recruitment tools I have suggested here are very simple and can easily be customized and developed to suit the requirement of any company needs Examples shared are of varied departments at basic level but the process can be used for recruiting any level of staff Here I have tried to incorporate tools which can be used for ground levels fresher as well as middle management levels If one wants to assess any specific skill of a specific level all one needs to do is change the level of vocabulary or terms used and you will be surprised at the answers you receive from the person being interviewed Psychometric tests have been mentioned too for Senior levels You will get an idea of all kinds of assessments that one should be aware of and can explore while recruiting
