Market Analysis

Customers

Family Farmers Choice has developed a database of present customer who buy on a regular basis and customers who have bought only occasionally as the opportunity presents itself, such as at farmers markets. Customer demographics show the current customers are in an income range of \$45,000 or more, two income families, professional occupations, concerned about the environment and located primarily in urban areas. Research also shows these customers are Internet users and willing to order product from our business via the Internet.

Research conducted by Farmers Choice has verified that there is a market segment large enough to justify the investment in the processing facility. Further, the premium these consumers are willing to pay will allow the shipment of products to nearly all geographic locations in the country. Focus groups, market surveys and product demonstrations at several locations were used to develop demographic profiles of each promising location so that zip codes could be used to easily identify future markets when expansion is deemed appropriate. (Note: Results of the surveys can be provided if additional information is desired.)

A significant number of consumers are concerned about where their meat products are coming from and how these products are processed. The company will market directly to that group. Since they are highly informed consumers, however, a major task will be to establish credibility.

In the farmers markets targeted for sales there are an estimated 100,000 potential customers (based on census estimates). At present, Farmers Choice has reached only a fraction of that customer base.

Based on data in the U.S. Census Bureau databases, estimated customer potential is as follows:

Big Town Farmers Market	55,000
Lotus	10,000
Keeper	10,000
Sagmore	15,000
Cool Springs	5,000

Market Size and Trends

1997	18.2 billion pounds of pork produced
1998	19.0 billion pounds of pork produced
1999	19.4 billion pounds of pork produced

Source: Steve Meier, National Pork Producers Council. 1999 figures based on USDA estimate.

Average prices received by the producer have decreased in recent years:

1997	\$52.90 per hundred weight
1998	\$34.40 per hundred weight

U.S. per capita consumption of pork is declining:

1980	57.3 pounds per person
1996	49.1 pounds per person

In spite of declining per capita consumption of pork, consumers still spend more money on pork per year than on poultry and fish. Average annual expenditures for pork in 1998 were \$146 per
