

LETTER OF RECOMMENDATION

I am writing this letter in support of Ms. xxxx, who is a student of Electronics and Communication Engineering at our college. In my capacity as a senior lecturer of the department, I have known her for the past four years and have found her to be an aspiring and sincere student. She is ranked within top 10% in her department of 117.

I have handled the courses of "Electronic circuits and Analog and Digital Communications." She has done exceedingly well by topping the department with an excellent score of 98% in Electronic circuits. This proves that she is strong in her fundamentals.

She has an inquisitive mind and good interpretation abilities that will greatly facilitate research work at your university. An intelligent and hardworking student, Divya has a natural inclination for research. This inclination stems from her curious bent of mind and a nature for questioning. She has the ability to voice her ideas clearly, which greatly enhances her expressiveness in solving doubts when approached by fellow students. Her extreme interest, persistent attitude and intellectual curiosity drive her to get deeply involved in her work and excel in it.

At a personal level, Divya is a well disciplined, industrious student with a pleasant personality. She is unstinting in her efforts to keep abreast with the latest technologies, indefatigable in showing the applications of theory to practice in the Laboratory.

Besides academics, Divya as a member of the association for communication engineers in this college takes part enthusiastically in various co-curricular activities of the department. She played a major role in organizing "Elenchus", a national level technical symposium conducted by the Department.

In my unbiased opinion she has a rich blend of creativity, temperament and discipline required for a person who desires a career in communication engineering. I strongly recommend her to the graduate program in your esteemed university with full assistantship.

Ms. B. Bala.
