Studies in Short Fiction, 1976 Others Joseph Hillis Miller, 2021-01-12 This volume fulfills the author s career long reflections on radical otherness in literature J Hillis Miller investigates otherness through ten nineteenth and twentieth century authors Friedrich Schlegel Charles Dickens George Eliot Anthony Trollope Joseph Conrad W B Yeats E M Forster Marcel Proust Paul de Man and Jacques Derrida From the exquisite close readings for which he is celebrated Miller reaps a capacious understanding of otherness one reachable not through theory but through literature itself Otherness has wide valence in contemporary literary and cultural studies and is often understood as a misconception by hegemonic groups of subaltern ones In a pleasing counter to this Others conceives of otherness as something that inhabits sameness Instances of the wholly other within the familiar include your sense of self or your beloved your sense of your culture as such or your experience of literary theoretical and philosophical works that belong to your own culture works that are themselves haunted by otherness Though Others begins and ends with chapters on theorists the testimony they offer about otherness is not taken as more compelling than that of such literary works as Dickens s Our Mutual Friend Conrad s The Secret Sharer Yeats s Cold Heaven or Proust s Remembrance of Things Past Otherness as this book finds it in the writers read is not an abstract concept It is an elusive feature of specific verbal constructs different in

each case It can be glimpsed only through close readings that respect this diversity as the plural in the title Others indicates We perceive otherness in the way that the unseen and the characters emotional responses to it ripples the conservative ideological surface of Howard s End We sense it as chaos in Schlegel s radical concept of irony And we gaze at it in the multiple personifications of Heart of Darkness Each testifies in its own way to the richness and tangible weight of an otherness close at hand CliffsNotes on Conrad's Heart of Darkness and The Secret Sharer Daniel Moran,2000-06-19 The original CliffsNotes study guides offer expert commentary on major themes plots characters literary devices and historical background The latest generation of titles in this series also feature glossaries and visual elements that complement the classic familiar format In CliffsNotes on The Heart of Darkness The Secret Sharer you come to understand how each of these stories deals with the dark side of the human character Heart of Darkness is a journey up the Congo River to where an ivory agent Kurtz has succumbed to human weakness and evil and has disintegrated into a grotesque creature The Secret Sharer is an allegorical examination of a timid man who struggles to stifle the more physical and dangerous part of himself Eventually he resolves this duality and becomes more daring and therefore more complete This concise supplement to Joseph Conrad s The Heart of Darkness The Secret Sharer helps you understand the overall structure of the novels actions and motivations of the characters and the social and cultural perspectives of the author Features that help you study include Part by part summaries and commentaries Character maps that graphically illustrates the relationships among the characters Critical essays that provide expert insight on the novels structure Review sections that test your knowledge Classic literature or modern modern day treasure you ll understand it all with expert information and insight from CliffsNotes study guides

The Shadow-Line Joseph Conrad,2013-10-10 Joseph Conrad s short novel The Shadow Line A Confession 1917 is one of the key works of early twentieth century fiction This edition established through modern textual scholarship and published as part of the Cambridge Edition of the Works of Joseph Conrad presents Conrad s only major work written during the First World War and its 1920 preface in forms more authoritative than any so far printed Correspondence reveals that the part and chapter divisions present in the historical editions lack authorial sanction and this edition of The Shadow Line offers a continuous text for the first time restoring to the narrative a fluency and dramatic intensity not hitherto found in any printing An Introduction and Explanatory Notes as well as maps and illustrations enrich this volume The Appendices publish materials relevant to Conrad s maritime career and to the publishing of the American serial and the Apparatus allows the reader to follow the creative process **The Software Encyclopedia** ,1988 **The Cultural Imaginary of Terrorism in Public Discourse, Literature, and Film** Michael C. Frank,2017-06-14 This study investigates the overlaps between political discourse and literary and cinematic fiction arguing that both are informed by and contribute to the cultural imaginary of terrorism Whenever mass mediated acts of terrorism occur they tend to trigger a proliferation of threat scenarios not only in the realm of literature and film but also in the statements of policymakers security experts and journalists In the process the

discursive boundary between the factual and the speculative can become difficult to discern To elucidate this phenomenon this book proposes that terror is a halfway house between the real and the imaginary For what characterizes terrorism is less the single act of violence than it is the fact that this act is perceived to be the beginning or part of a potential series and that further acts are expected to occur As turn of the century writers such as Stevenson and Conrad were the first to point out this gives terror a fantastical dimension a fact reinforced by the clandestine nature of both terrorist and counter terrorist operations Supported by contextual readings of selected texts and films from *The Dynamiter* and *The Secret Agent* through late Victorian science fiction to post 9 11 novels and cinema this study explores the complex interplay between actual incidents of political violence the surrounding discourse and fictional engagement with the issue to show how terrorism becomes an object of fantasy Drawing on research from a variety of disciplines *The Cultural Imaginary of Terrorism* will be a valuable resource for those with interests in the areas of Literature and Film Terrorism Studies Peace and Conflict Studies Trauma Studies and Cultural Studies
