This book is a unique study of the historical, theoretical, and cultural interpretations of madness, including interviews with those who have experiences of madness. It takes a transdisciplinary approach, employing historical, psychological, and sociological perspectives through an intersectional lens. This work explains how the prioritization of thinking over feeling in Western thought means the transrational imagination has frequently been negated in tackling mental health with detrimental results. This book therefore examines creative media, especially film, as a transrational form of human expression for healing and wellbeing, along with television, theatre, social media, music, and computer games. Madness, with regards to gender, sexuality, adolescence, and class in media and film, is interrogated, as well as madness and race, through a focus on colonialism, post colonialism, and psychiatry. It analyses group psychosis, including celebrity culture and the madness of leaders and gurus. This book challenges the lasting influence of the Age of Reason by furthering our understanding of the value of transrationality and the diverse ways of being human. *Normalizing Mental Illness and Neurodiversity in Entertainment Media* Malynnda Johnson, Christopher J. Olson, 2021-04-19. This volume examines the shift toward positive and more accurate portrayals of mental illness in entertainment media, asking where these succeed and considering where more needs to be done. With studies that identify and analyze the characters' viewpoints and experiences of mental illness across film and television, it considers the messages conveyed about mental illness and reflects on how the different texts reflect, reinforce, or challenge sociocultural notions regarding mental illness. Presenting chapters that explore a range of texts from film and television covering a variety of mental health conditions, including autism, post-traumatic stress disorder, PTSD, depression, and more, this book will appeal to scholars of sociology, cultural and media studies, and mental health. *Vigilantes* Kevin Grant, 2020-01-03. For many people, the cinematic vigilante has been shaped by Charles Bronson's character in *Death Wish* and its sequels. But screen vigilantes have taken many guises, from Old West lynch mobs and rogue police officers to rape avengers and military-trained equalizers. This book recounts the varied representations of such

characters in films like *The Birth of a Nation* which celebrated the violence of the Ku Klux Klan and *Taxi Driver* *Falling Down* and *You Were Never Really Here* in which the vigilante impulse was symptomatic of mental instability Also considered is the extent to which fictional vigilantism functions as social commentary and to what degree it is simply stoking popular fears
