Youth Workers, Stuckness, and the Myth of Supercompetence Ben Anderson-Nathe, 2013-12-16 Youth workers and other helping professionals regularly find themselves in situations where despite their experience and education they simply do not know what to do or how to respond to the circumstances facing them This book takes up the moment of not knowing as experienced by youth workers providing accessible phenomenological descriptions of the experience as lived by several youth workers In addition to exploring the five dominant themes of the experience the book situates not knowing in the larger context of the helping professions and the professionalization of youth work in the United States It concludes with a discussion of the implications of not knowing for individual youth workers for improved practice through integrated clinical and professional supervision and for the field as a whole This book will be helpful to practitioners and supervisors in youth work and other helping professions Youth workers will be able to find themselves reflected in and readily engage with the narratives Direct service workers and supervisors will benefit from the focuses on practical implications of not knowing and opportunities for action to help resolve its negative outcomes Finally interpretive researchers and students will benefit from the step by step description of how to conduct phenomenological investigations This book was published as a special issue of Child Youth Services

The Changing Landscape of Youth Work Kristen M. Pozzoboni, Ben Kirshner, 2016-07-01 The purpose of this book is to compile and publicize the best current thinking about training and professional development for youth workers School age youth spend far more of their time outside of school than inside of school The United States boasts a rich and vibrant ecosystem of Out of School Time programs and funders ranging from grassroots neighborhood centers to national Boys and Girls Clubs The research community too has produced some scientific consensus about defining features of high quality youth development settings and the importance of after school and informal programs for youth But we know far less about the people who provide support guidance and mentoring to youth in these settings What do youth workers do What kinds of training certification and job security do they have Unlike K 12 classroom teaching a profession with longstanding if contested legitimacy and recognition youth work does not call forth familiar imagery or cultural narratives Ask someone what a youth worker does and they are just as likely to think you are talking about a young person working at her first job as they are to think you mean a young adult who works with youth This absence of shared archetypes or mental models is matched by a shortage of policies or professional associations that clearly define youth work and assume responsibility for training and preparation This is a problem because the functions performed by youth workers outside of school are critical for positive youth development especially in our current context governed by widening income inequality The US has seen a decline in social mobility and an increase in income inequality and racial segregation This places a greater premium on the role of OST programs in supporting access and equity to learning opportunities for children particularly for those growing up in neighborhoods of concentrated poverty Fortunately in the past decade there has been an emergence of

research and policy arguments about the importance of naming defining and attending to the profession of youth work A report released in 2013 by the DC Children and Youth Investment Corporation suggests employment opportunities for youth workers are growing faster than the national average and as the workforce increases so will efforts to professionalize it through specialized training and credentials Our purpose in this volume is to build on that momentum by bringing together the best scholarship and policy ideas coming from in and outside of higher education about conceptions of youth work and optimal types of preparation and professional development

perspective located in the context of a youth club Drawing on ethnographic research Phoebe Hill presents an account of what an authentic Christian hospitality could look like in a youth setting and the ways in which the young people the strangers at the door might enable the Christian youth worker to become more fully at home Discourses around Christian hospitality often unwittingly perpetuate implicit power imbalances The youth club offers a context for Christian hospitality that tips the power in favour of the young people who attend enabling the youth leaders to share and create home with young people in a distinctive way As young people leave the Church in droves the Church faces the urgent and daunting task of finding new ways of being with young people on their own terms this book offers one solution Hill argues that homecoming is an essential task of humanity We are connected in this common pilgrimage and the need to find places and spaces where we can be at home Becoming at home may be harder than ever before numerous sociological philosophical and theological factors are compromising our ability to dwell in the contemporary world Spirituality for Youth-Work Phil Daughtry, 2016-09-23 This book addresses a systemic gap in existing studies on human services and youth work While the notion of spirituality does make rare appearances in such literature it is often vaguely defined and underdeveloped both as a concept and as a mode of practice This ambiguity is symptomatic of the broader shift in the sociological context of Western and global societies that has been referred to variously as post modern late modern and post secular From the perspective of the relationship between human development and the spiritual theological we live in a time between times We have not yet worked out how to speak of spirit nor how to include its meanings in positive youth intervention and developments in our language for a public spiritual consciousness remain in a state of cultural flux This book offers a coherent vocabulary and narrative from which to construct a more explicit and deliberate practice of spiritual care education and professional identity for youth workers It speaks directly to youth work practitioners managers of youth services those providing youth work education and anyone with an interest in youth and spirituality research and practice **The SAGE Handbook of Youth Work Practice** Pam Alldred, Fin Cullen, Kathy Edwards, Dana Fusco, 2018-07-02 Showcases the value of professional work with young people as it is practiced in diverse forms and in locations from around the world **Youth Work: Histories, Policy and Contexts** Graham Bright, 2015-09-10 Youth work is a means of promoting learning equality and inclusion with young people It is an incredibly rewarding profession however state regulation means that youth work students and practitioners must continuously wrestle with the challenges of contemporary practice in environments that are complex and changing This book brings together a collection of voices to speak to these concerns Drawing on the history of the profession each chapter focuses on a different aspect of policy and practice Chapters explore the impact of New Labour the changes that came with the coalition government youth work in the voluntary sector and youth work in a digital world Graham Bright concludes with a powerful reflection on what the future holds for the profession Each chapter features Over to You activity boxes which invite readers to engage collaboratively in developing and applying ideas with case studies which link discussion to real life

Development Professionals William B. Kearney,2014-02 In the past thirty six years working with child and youth programs from the local to the federal level in the private not for profit and public sectors I have observed more than a thousand child and youth programs As I visit program sites I have often seen the same scenario play out over and over again Well intentioned volunteers and eager new staff want to work with and contribute to the lives of young people but they don t get the training support or resources they need to succeed They do not have understanding of child and youth development and how to use these principles as they work with young people So often organizations don t have the budgets and resources to provide the needed level of child and youth development training and practice for new staff and volunteers *Global*
