of Recent Phenomena in Media and Culture Martin A. M. Gansinger,Ayman Kole,2021-12-21 The volume provides an updated perspective on international aspects of various developments in media and culture It includes discussions on how the digital environment contributes to the transformation and re interpretation of existing phenomena such as violence on demand in online movies the internet appeal of virtual gangsta rappers or the revived battle rap tradition which operates outside the commercial limitations of the music industry and generates more views on social media than most recording artists The book offers a new consideration of long term trends and developments and demonstrates in various examples how

formerly marginal practices like gaming or the previously shunned Turkish movie industry have turned into influential tools of social change. In addition, the reciprocity of media content and political settings is underlined in a focus on the Arab world and the reconstruction of impulses from transnational media outlets to recent forms of citizen journalism as well as in the case of governments' approaches to media policy in response to the COVID 19 pandemic. The book places the spotlight on pressing issues such as the ongoing enforcement of information control in the name of public health or the local politics and practices that hinder the process of democratization in authoritarian systems.

Millennial Jewish Stars Jonathan Branfman, 2024-06-18 Highlights how millennial Jewish stars symbolize national politics in US media. Jewish stars have longed faced pressure to downplay Jewish identity for fear of alienating wider audiences. But unexpectedly since the 2000s many millennial Jewish stars have won stellar success while spotlighting rather than muting Jewish identity. In *Millennial Jewish Stars* Jonathan Branfman asks what makes these explicitly Jewish stars so unexpectedly appealing. And what can their surprising success tell us about race, gender, and antisemitism in America. To answer these questions Branfman offers case studies on six top millennial Jewish stars: the biracial rap superstar Drake, comedic rapper Lil Dicky, TV comedy duo Abbi Jacobson and Ilana Glazer, man baby film star Seth Rogen, and chiseled film star Zac Efron. Branfman argues that despite their differences, each star's success depends on how they navigate racial antisemitism, the historical notion that Jews are physically inferior to Christians. Each star especially navigates racial stigmas about Jewish masculinity, stigmas that depict Jewish men as emasculated and Jewish women as masculinized and both as sexually perverse. By embracing, deflecting, or satirizing these stigmas, each star comes to symbolize national hopes and fears about all kinds of hot button issues. For instance, by putting a cuter twist on stereotypes of Jewish emasculation, Seth Rogen plays soft man babies who dramatize and then resolve popular anxieties about modern fatherhood. This knack for channeling national dreams and doubts is what makes each star so unexpectedly marketable. In turn, examining how each star navigates racial antisemitism onscreen makes it easier to pinpoint how antisemitism, white privilege, and color-based racism interact in the real world. Likewise, this insight can aid readers to better notice and challenge racial antisemitism in everyday life.

Agrotropolis J.T. Way, 2021-01-26 In *Agrotropolis*, historian J.T. Way traces the developments of Guatemalan urbanization and youth culture since 1983. In case studies that bring together political economy, popular music, and everyday life, Way explores the rise of urban space in towns seen as quintessentially rural and showcases grassroots cultural assertiveness. In a post-revolutionary era, young people coming of age on the globally inflected city street used popular culture as one means of creating a new national imaginary that rejects Guatemala's racially coded system of castes. Drawing on local sources, deep ethnographies, and the digital archive, *Agrotropolis* places working-class Maya and mestizo hometowns and creativity at the center of planetary urban history.

Translating the Language of the Syrian Revolution (2011/12) Eylaf Bader Eddin, 2023-11-20 While the Arab revolutions have obviously triggered extensive social and political changes, the far-reaching consequences of the cultural and

discursive changes have yet to be adequately considered For activists researchers and journalists the revolution was primarily a revolution in language a break with the linguistic oppression and the rigidity of the old regimes This break was accompanied by the emergence of new languages which made it possible to inform tell and translate the ongoing events and transformations This language of the revolution was carried out into the world by competing voices from Syria by local and foreign researchers activists and journalists The core of this project is to find the various translations of the language of the Syrian revolution 2011 2012 from Arabic to English to study and analyze In addition the discursive and non discursive dimensions of the revolution are to be seen as another act of translation including the language of the banners slogans graffiti songs and their representation in English

Beyond Strategies: Cultural Dynamics in Asian Connections Ms Priya Singh, Ms Suchandana Chatterjee, Ms Anita Sengupta, 2014-01-15 While strategic issues continue to be the critical element for foreign policy formulation there are significant dimensions outside the hard core of policy framework that remain by and large unappreciated in policy related literature These dimensions envelop a rather wide range of actions activities that essentially comprise what could be broadly referred to as constituting cultural dynamics These entail looking beyond the radar of strategic relationships at socio cultural engagements encompassing both institutions and communities These in turn involve a large number of citizens cutting across boundaries and reiterating and reemphasising a sense of belonging or unbelonging This volume is an attempt at looking beyond the realms of strategy in the Asian geopolitical space This compilation of essays commentaries research notes and film review is an attempt at presenting a nuanced understanding analysis and appreciation of the cultural linkages in the Asian milieu

Therapeutic Uses of Rap and Hip-Hop Susan Hadley, George Yancy, 2012-05-22 In perceiving all rap and hip hop music as violent misogynistic and sexually charged are we denying the way in which it is attentive to the lived experiences both positive and negative of many therapy clients This question is explored in great depth in this anthology the first to examine the use of this musical genre in the therapeutic context The contributors are all experienced therapists who examine the multiple ways that rap and hip hop can be used in therapy by listening and discussing performing creating or improvising The text is divided into three sections that explore the historical and theoretical perspectives of rap and hip hop in therapy describe the first hand experiences of using the music with at risk youth and discuss the ways in which contributors have used rap and hip hop with clients with specific diagnoses respectively Within these sections the contributors provide rationale for the use of rap and hip hop in therapy and encourage therapists to validate the experiences for those for whom rap music is a significant mode of expression Editors Susan Hadley and George Yancy go beyond promoting culturally competent therapy to creating a paradigm shift in the field one that speaks to the problematic ways in which rap and hip hop have been dismissed as expressive of meaningless violence and of little social value More than providing tools to incorporate rap into therapy this text enhances the therapist's cultural and professional repertoire

Untold Stories David Divita, 2024-01-31 Forgetting about Spain's civil war 1936-9 and subsequent dictatorship

was long seen as a necessary safeguard for the democracy that emerged after General Francisco Franco's death in 1975. Since the early 2000s however public discussion of historical memory has awakened efforts to remember this past through the personal testimonies of Spaniards who experienced it firsthand. *Untold Stories* expands accounts of twentieth century Spain by presenting an ethnography of an ignored population: the impoverished men and women who fled Franco's dictatorship in the 1960s participating in a wave of labour migration to northern Europe. Now in their eighties they were born around the time of the civil war and came of age during its repressive aftermath before leaving Spain as young adults. The book features a community of such Spaniards who gather regularly at a senior centre on the outskirts of Paris. Drawing on concepts from linguistic anthropology David Divita analyses conversational encounters recorded among the seniors to demonstrate how a turbulent past shapes mundane moments of social interaction in the present. Documenting what is said as well as what is not Divita reveals through detailed textual analysis how silence can pervade the creation of social meanings such as belonging, authority and legitimacy. *Untold Stories* illuminates the impact of a harrowing historical period on some of Spain's most marginal citizens in the early years of the dictatorship. *Language, Youth and Identity in the 21st Century* Jacomine Nortier, Bente A. Svendsen, 2015-03-19 This volume explores and compares linguistic practices among young people in linguistically and culturally diverse urban spaces. **Digital Youth Subcultures** Kate Hoskins, Carlo Genova, Nic Crowe, 2022-12-30 This book draws together both primary and secondary empirical research and existing literature to examine transgressive subcultural activities and engagement in digital social spaces (DSS). The book addresses four objectives: 1 To understand how young people's subcultures arise online and how they are constructed and experienced in DSS; 2 To understand how and why DSS matter to young people; 3 To understand if any DSS controls exist in these online spaces; and 4 To understand how identity locations such as social class, gender and ethnicity and/or their intersections shape young people's engagement and behaviour in DSS. In addressing these objectives with a focus on European contributions the text provides a holistic understanding of the purpose of digital social spaces in shaping young people's identities and self-perceptions. It will be of interest to postgraduate students, secondary school teachers, lecturers and scholars in education, sociology, youth studies and technology.
