

Introduction to Psychology

Introduction to Psychology Introduction to the Unit Unit overview This unit focuses on understanding psychological theory and its application to life. It provides you with an understanding of: • psychology as a social science • the biological basis of behaviour • psychological development through the lifespan • sensation and perception • states of consciousness • memory, learning and conditioning theories • cognition, language, creativity and intelligence • motivation and emotion • personality • psychological disorders and their treatment • health, stress and coping Unit objectives

By the conclusion of this unit, you should be able to: • demonstrate and describe the role of psychology in various areas of life • demonstrate an understanding of psychology as a social science • use basic terminology and concepts of psychological theory • apply psychological theories to your own life Textbook The textbook for this unit is by Weiten, W. , Dunn, D. S. , & Hammer, E. Y. (2012). *Psychology applied to modern life: Adjustment in the 21st century* (10th ed.). Belmont, CA: Wadsworth Cengage Learning. This manual directs you to the relevant chapters of your textbook associated with each section. Unit Overview Introduction to Psychology Studying for this unit The content of this unit has been designed to maximise the learning and the integration of the subject matter. Some of the unit material may be specific to the Australian context. Students are encouraged to access additional information relevant to their local area that will assist in applying the learning. This may include specific legislation, professional associations and locally published journals. It is important that your learning is broadbased. Accessing local resources that build on what is contained in this unit will greatly assist your learning.

In studying this unit, you will need a notebook for completing the activities and selfassessment for each section. Within your notebook, you may like to set aside space for: • completing a glossary of new terminology introduced in this unit • personal notes on unit content and readings In general, students are expected to: • read each section of the unit carefully and make notes on anything which is new, vague, tentative or in conflict with your knowledge or experience • complete each activity fully and honestly before moving on • complete readings of the textbook, making notes of important insights or facts

Effective writing for social work Rai, Lucy, 2014-09-17 Based on original research, this book offers students an insight into the nature and challenges of writing in social work practice, enabling them to improve their writing skills. It explores the ways in which both students and qualified social workers can be more effective in their writing through an awareness of the purpose, context and audience. It makes explicit the connections and differences between learning to write in university and communicating through writing in practice and explores the impact that new technologies have on academic and professional writing. Drawing on both research and examples from practice, *Effective writing for social work* is a valuable tool for students, educators, practitioners and managers to critically examine ways in which writing could better support best practice in social work.
