

Purpose of College Education

There is no doubt that education plays an important role in people's lives. At a very young age, people begin spending time in school to acquire the basic things necessary in life including reading and writing. They progress to more complicated lessons as time goes on. However, the most important education that a person can receive would probably be tertiary education. This is also known as college education where people are able to pick an area or field that they want to specialize in.

The primary purpose of a college education would be for a person to acquire the necessary skills and knowledge in his or her chosen career and become fully prepared for the real world. For the students, a college education is a means of pursuing their dreams and ambitions in life (Borade, 2009). There are many people who believe that having a bachelor's degree will present more opportunities for them. Although there are several individuals who have become successful even without finishing their college education, it is still more effective if people graduate from college, especially if education is all that they have.

Nowadays, companies and employers prefer to hire individuals who have college degrees and would pay even more if they have masterals or doctorate degrees. Having a college degree increases individuals' chances of being hired in the corporate world rather than having average and low-paying jobs. "For a parent, the very purpose of a good college education is to enable the child to probe the realms of thought and access real higher learning" (Borade, 2009). Parents only want the best for their children.

They want to see their children succeed in everything that they do. They push their children to finish college because they know that this will benefit their children in the future. They want their children to maximize their full potential and bring out the best that they can be in life through academic learning. Academic institutions also plays a role in the academic lives of students. Their purpose is to provide the best educational experience to the students enrolled in their campus.

For them, the purpose of college education is for them to act out their roles as providers of education. Without them, people will have nowhere to go to receive education. The staff and the institution greatly help students mold themselves into the best individuals that they can be in the future. However, it is important to note that not all people believe in a college education. These people think that everyone can become successful even without finishing tertiary education.

This is not hard to believe since there are numerous college drop outs that have emerged to become successful in their respective fields. Still, people, especially young students should not rely on this information and try their best to excel on their own. They should keep in mind that not all people are lucky and fortunate enough to attend college. While the

[Write Yourself In](#) Eric Tipler, 2024-06-11 Write authentic memorable college essays that will help you get into the right school for you with this guidebook from a veteran college admissions expert Every spring over one million high school juniors embark on an annual rite of passage applying to college And with college admission rates at an all time low getting into a competitive school is now tougher than ever At the top schools a strong transcript and great test scores will get

your application noticed but it's your essays and the personal story that they highlight that will get you admitted. But often students don't know where to start. Teens fret over topics because they don't know what college admissions officers are looking for. They bend over backwards to write what they think colleges want to read instead of telling their authentic story which is what admissions officers actually want in a way that will resonate with their readers. They also struggle because college essays which are narrative first person and introspective require a different set of skills from academic expository writing they've been learning for years in the classroom. Seasoned college admissions expert and educator Eric Tipler has seen this firsthand. Teens and their parents spend countless anxiety filled hours crafting and refining essays that are often lackluster. In *Write Yourself In* Tipler meets students where they are and provides comprehensive actionable advice in a warm and conversational tone. He demonstrates how to craft a winning essay one that is authentic, vulnerable and demonstrative of qualities like personal growth and emotional maturity. Instead of formulas *Write Yourself In* gives students step by step processes for brainstorming, outlining, writing and revising essays. It encourages them to seek out feedback at key points in the process something Tipler has found to be vital to helping students produce their best writing. Further the book includes sidebars that teach essential components of good storytelling a secret weapon in the admissions process. In addition to the admissions essay *Write Yourself In* also covers the most common supplemental essays on topics like community, diversity, openness to others, viewpoints and why their school is a good fit for the student. Scholarship essays as well as scholarship essays. Tipler includes sections that address current topics like the widespread use of ChatGPT and the discussion of race in the admissions essay a facet of the student's application that will have newfound importance given the Supreme Court decision on affirmative action. Written with both the parent and teen in mind *Write Yourself In* is the go to handbook for writing a great college essay.
