Hjarvard,2013-03-12 Mediatization has emerged as a key concept to reconsider old yet fundamental questions about the role and influence of media in culture and society In particular the theory of mediatization has proved fruitful for the analysis of how media spread to become intertwined with and influence other social institutions and cultural phenomena like politics play and religion This book presents a major contribution to the theoretical understanding of the mediatization of culture and society This is supplemented by in depth studies of The mediatization of politics From party press to opinion industry The mediatization of religion From the faith of the church to the enchantment of the media The mediatization of play From bricks to bytes The mediatization of habitus The social character of a new individualism Mediatization represents a new social condition in which the media have emerged as an important institution in society at the same time as they have become integrated into the very fabric of social and cultural life Making use of a broad conception of the media as technologies institutions and aesthetic forms Stig Hjarvard considers how characteristics of both old and new media come to influence human interaction social institutions and cultural imaginations Deadlier Than the Male Michelle Lovric,1997 *Allegory and Enchantment* Jason Crawford,2017-01-19 What is modernity Where are modernity's points of origin Where are its boundaries And what lies beyond those boundaries *Allegory and Enchantment* explores these broad questions by considering the work of English writers at the threshold of modernity and by considering in particular the cultural forms these writers want to leave behind From the fourteenth to the seventeenth centuries many English writers fashion themselves as engaged in breaking away from an array of old idols magic superstition tradition the sacramental the medieval Many of these writers persistently use metaphors of disenchantment of awakening from a broken spell to describe their self consciously modern orientation toward a medieval past And many of them associate that repudiated past with the dynamics and conventions of allegory In the hands of the major English practitioners of allegorical narrative William Langland John Skelton Edmund Spenser and John Bunyan allegory shows signs of strain and disintegration The work of these writers seems to suggest a story of modern emergence in which medieval allegory with its search for divine order in the material world breaks down under the pressure of modern disenchantment But these four early modern writers also make possible other understandings of modernity Each of them turns to allegory as a central organizing principle for his most ambitious poetic projects Each discovers in the ancient forms of allegory a vital powerful instrument of disenchantment Each of them therefore opens up surprising possibilities that allegory and modernity are inescapably linked that the story of modern emergence is much older than the early modern period and that the things modernity has tried to repudiate the old enchantments are not as alien or as absent as they seem *Shooting Butterflies* Marika Cobbold,2011-05-15 This gripping and moving story is an honest chronicle of what happens to relationships over time and a sharp observation of one woman's emotional life The Times A perceptive and delicately written study of human relations and motivations painful funny and fresh which Cobbold has structured quite ingeniously building the story layer upon layer rather like a painting Observer By the time Grace is eighteen

she has been orphaned moved countries and lost touch with her only brother Talented awkward and a little fierce she can't help thinking that she's managed to lose anything she's ever loved So she decides to revisit her past in America and she's brought her camera she's going to catch these memories and pin them down to keep What she isn't expecting that summer in New Hampshire is to meet the love of her life Some years later now divorced and flourishing as a controversial photographer Grace lives alone she likes the fact that everything will be exactly where she left it Until Grace finds that she is quite literally being haunted by the past
