Putin Vs Putin Vladimir Putin Viewed From The Right:

Putin Vs Putin Alexander Dugin, 2015-05-25 According to Prof Alexander Dugin Vladimir Putin stands at a crossroads Throughout his career as the President of Russia Putin has attempted to balance two opposing sides of his political nature one side is a liberal democrat who seeks to adopt Western style reforms in Russia and maintain good relations with the United States and Europe and the other is a Russian patriot who wishes to preserve Russia's traditions and reassert her role as one of the great powers of the world According to Dugin this balancing act cannot go on if Putin wishes to enjoy continuing popular support among the Russian people Putin must act to preserve Russia's unique identity and sovereignty in the face of increasing challenges both from Russian liberals at home and from foreign powers Russia is no longer strong enough to stand on her own he writes In order to do this Russia must cooperate with other dissenting powers who oppose the new globalist order of liberalism to bring about a multipolar world in which no single nation wields supreme power but rather several major powers keep each other in balance Russia is crucial to this effort in Dugin's view and indeed its own survival as a unique and independent civilisation is dependent on a geopolitical shift away from the unipolar world represented by America's unchecked supremacy This fascinating book written by an informal advisor to Putin and a Kremlin insider is the first of its kind in English Alexander Dugin b 1962 is one of the best known writers and political commentators in post Soviet Russia having been active in politics there since the 1980s In addition to the many books he has authored on political philosophical and spiritual topics he is the leader of the International Eurasia Movement which he founded For more than a decade he has been an advisor to Vladimir Putin and the Kremlin on geopolitical matters and was head of the Department of Sociology at Moscow State University Arktos has also published his books *The Fourth Political Theory* 2012 *Eurasian Mission An Introduction to Neo Eurasianism* 2014 and *Last War of the World Island The Geopolitics of Contemporary Russia* 2015

Putin vs Putin Alexander Dugin, 2014-10-06 According to Prof Alexander Dugin Vladimir Putin stands at a crossroads Throughout his career as the President of Russia Putin has attempted to balance two opposing sides of his political nature one side is a liberal democrat who seeks to adopt Western style reforms in Russia and maintain good relations with the United States and Europe and the other is a Russian patriot who wishes to preserve Russia's traditions and reassert her role as one of the great powers of the world According to Dugin this balancing act cannot go on if Putin wishes to enjoy continuing popular support among the Russian people Putin must act to preserve Russia's unique identity and sovereignty in the face of increasing challenges both from Russian liberals at home and from foreign powers Russia is no longer strong enough to stand on her own he writes In order to do this Russia must cooperate with other dissenting powers who oppose the new globalist order of liberalism to bring about a multipolar world in which no single nation wields supreme power but rather several major powers keep each other in balance Russia is crucial to this effort in Dugin's view and indeed its own survival as a unique and independent civilisation is dependent on a geopolitical shift away from the unipolar world represented by

America's unchecked supremacy This fascinating book written by an informal advisor to Putin and a Kremlin insider is the first of its kind in English **Putin and Putinism** Ronald J. Hill, Ottorino Cappelli, 2013-10-31 After two terms as president of the Russian Federation Vladimir Putin handed over to his hand picked successor Dmitri Medvedev on 7 May 2008 and became prime minister As president Putin moved swiftly and effectively to overcome the chaotic legacy of his predecessor post Soviet Russia's first president Boris Yeltsin Focusing on rebuilding the authority of the Russian state and taking advantage of the rise in world prices of the country's main asset oil and natural gas Putin won unassailable popularity at home and caused apprehension around the world particularly in Russia's immediate neighbourhood His methods of rule caused anxiety among liberals and democrats inside Russia and abroad The legacy of Putin's presidency poses challenges that demand interpretation He has not departed from the Russian or the world political scene and the need to understand and come to terms with Putin's Russia has not diminished These essays by an international team of authors are based on presentations to a working conference held in Naples Italy in May 2008 supplemented by contributions from authors who were not present at the conference in order to present a wider selection of views and interpretations of the Putin phenomenon This book was published as a special issue of Communist Studies and Transition Politics **Publications**

Combined: Russia's Regular And Special Forces In The Regional And Global War On Terror , Over 2 400 total pages Russian outrage following the September 2004 hostage disaster at North Ossetia's Beslan Middle School No 1 was reflected in many ways throughout the country The 52 hour debacle resulted in the death of some 344 civilians including more than 170 children in addition to unprecedented losses of elite Russian security forces and the dispatch of most Chechen allied hostage takers themselves It quickly became clear as well that Russian authorities had been less than candid about the number of hostages held and the extent to which they were prepared to deal with the situation Amid grief calls for retaliation and demands for reform one of the more telling reactions in terms of hardening public perspectives appeared in a national poll taken several days after the event Some 54% of citizens polled specifically judged the Russian security forces and the police to be corrupt and thus complicit in the failure to deal adequately with terrorism while 44% thought that no lessons for the future would be learned from the tragedy This pessimism was the consequence not just of the Beslan terrorism but the accumulation of years of often spectacular failures by Russian special operations forces SOF in the apt US military acronym A series of Russian SOF counterterrorism mishaps misjudgments and failures in the 1990s and continuing to the present have made the Kremlin's special operations establishment in 2005 appear much like Russia's old Mir space station wired together unpredictable and subject to sudden startling failures But Russia continued to maintain and expand a large variegated special operations establishment which had borne the brunt of combat actions in Afghanistan Chechnya and other trouble spots and was expected to serve as the nation's principal shield against terrorism in all its forms Known since Soviet days for tough personnel personal bravery demanding training and a certain rough or brutal competence that not

infrequently violated international human rights norms it was supposed that Russian special operations forces steeped in their world of threats to the state and associated with once dreaded military and national intelligence services could make valuable contributions to countering terrorism. The now widely perceived link between corrupt special forces on the one hand and counterterrorism failures on the other reflected the further erosion of Russia's national security infrastructure in the eyes of both Russian citizens and international observers. There have been other more ambiguous but equally unsettling dimensions of Russian SOF activity as well that have strong internal and external political aspects. These constitute the continuing assertions from Russian media, the judicial system and other Federal agencies and officials that past and current members of the SOF establishment have organized to pursue interests other than those publicly declared by the state or allowed under law. This includes especially the alleged intent to punish by assassination those individuals and groups that they believe have betrayed Russia. The murky nature of these alleged activities has formed a backdrop to other problems in the special units.

Creating Russophobia Guy Mettan, 2017-06-29

Why do the USA, UK and Europe so hate Russia? How is it that Western antipathy once thought due to anti Communism could be so easily revived over a crisis in distant Ukraine against a Russia no longer communist? Why does the West accuse Russia of empire building when 15 states once part of the defunct Warsaw Pact are now part of NATO and NATO troops now flank the Russian border? These are only some of the questions Creating Russophobia investigates. Mettan begins by showing the strength of the prejudice against Russia through the Western response to a series of events: the Uberlingen mid air collision, the Beslan hostage taking, the Ossetia War, the Sochi Olympics and the crisis in Ukraine. He then delves into the historical, religious, ideological and geopolitical roots of the detestation of Russia in various European nations over thirteen centuries since Charlemagne competed with Byzantium for the title of heir to the Roman Empire. Mettan examines the geopolitical machinations expressed in those times through the medium of religion, leading to the great Christian schism between Germanic Rome and Byzantium and the European Crusades against Russian Orthodoxy. This history of taboos, prejudices and propaganda directed against the Orthodox Church provides the mythic foundations that shaped Western disdain for contemporary Russia. From the religious and imperial rivalry created by Charlemagne and the papacy to the genesis of French, English, German and then American Russophobia, the West has been engaged in more or less violent hostilities against Russia for a thousand years. Contemporary Russophobia is manufactured through the construction of an anti Russian discourse in the media and the diplomatic world and the fabrication and demonization of 'The Bad Guy' now personified by Vladimir Putin. Both feature in the meta narrative, the mythical framework of the ferocious Russian bear ruled with a rod of iron by a vicious president. A synthetic reading of all these elements is presented in the light of recent events and in particular of the Ukrainian crisis and the recent American elections, showing how all the resources of the West's soft power have been mobilized to impose the tale of bad Russia, dreaming of global conquest.

Putin Vs Putin Aleksandr Gel'evič Dugin, 2014

Last War of the World-Island: The

Geopolitics of Contemporary Russia Alexander Dugin, 2015-05-26 Alexander Dugin traces the geopolitical development of Russia from its origins in Kievan Rus and the Russian Empire through the peak of its global influence during the Soviet era and finally to the current presidency of Vladimir Putin Dugin sees Russia as the primary geopolitical pole of the land based civilizations of the world forever destined to be in conflict with the sea based civilizations At one time the pole of the seafaring civilizations was the British Empire today it is represented by the United States and its NATO allies Russia can only fulfill its geopolitical mission by remaining in opposition to the sea powers Today according to Dugin this conflict is not only geopolitical in scope but also ideological Russia is the primary representative and defender of traditional values and idealism whereas the West stands for the values of liberalism and the market driven society Whereas Russia began to lose sight of its mission during the 1990s and threatened to succumb to domination by the Western powers Dugin believes that Putin has begun to correct its course and return Russia to her proper place But the struggle is far from over while progress has been made Russia remains torn between its traditional nature and the temptations of globalism and Westernization and its enemies undermine it at every turn Dugin makes the case that it is only by remaining true to the Eurasian path that Russia can survive and flourish in any genuine sense otherwise it will be reduced to a servile and secondary place in the world and the forces of liberalism will dominate the world unopposed

The Many Faces of Christianity, 2025-08-28 Is the Russian invasion of Ukraine a Holy War This book offers insights into the complex ideology of the Russki Mir or Russian World which must be understood as Russian shaped world order or peace but above all a claim to the sacred The collected essays describe how Far Right politics in Europe and its resonances with the Russian World nod to the changing meaning of Christianity defying and transforming the categories of religion and politics and challenging common conceptions of the role of Christianity in European politics

ECCWS 2023 22nd European Conference on Cyber Warfare and Security Antonios Andreatos, Christos Douligeris, 2023-06-22 **Research Anthology on Fake News, Political Warfare, and Combatting the Spread of Misinformation** Management Association, Information Resources, 2020-10-30 With recent headlines around fake news from world leaders and around presidential elections Twitter and other social media platforms being pressured to detect and label misinformation posted on their platforms as well as misinformation around COVID 19 and its vaccine the world has seen an increase in protests policy changes and even chaos surrounding this information This spread of misinformation when left unchecked can turn fiction into fact and result in a mass misconception of the truth that shapes opinions creates false narratives and impacts multiple facets of society in potentially detrimental ways indicating a need for the latest research on how the devastating impacts of this trend how to discern facts from misinformation as well as more information on technological advancements in fake news detection The Research Anthology on Fake News Political Warfare and Combatting the Spread of Misinformation is a compilation of the most comprehensive previously published and highly cited research from prestigious institutions including Columbia University and Stanford University USA which focuses

on understanding fake news how it spreads its negative effects and current solutions being investigated While highlighting topics such as fake news trending conspiracy theories media distrust political warfare and detection methods this book is ideally intended for practitioners stakeholders researchers academicians and students interested in the continuing surge of fake news and its at times dangerous results *Psychoanalytic Reflections on Vladimir Putin* Richard Wood,2024-04-03
Psychoanalytic Reflections on Vladimir Putin The Cost of Malignant Leadership attempts to explore the core psychodynamics that appear to characterize Vladimir Putin s presidency Its contributors examine the nature of the leader follower relationship the costs of malignant leadership and the larger historical context in which Putin s presidency is unfolding The sobering threat of nuclear war is considered Finally the viability and ethics of distance assessment are discussed This book will be of great interest to psychoanalysts and to readers seeking to understand the complex dynamics of populist leadership

A Mashup World Irina Perianova,2018-12-05 In the 21st century hybrids such as hybrid war hybrid regimes hybrid cars and hybrid identities among others have become all pervasive and the computer term mashup has turned into a symbol of hybridity This book highlights the phenomenon of hybridity and hybridization from a variety of angles and perspectives in social and cultural practices education and fiction and notes the connecting patterns between hybridization in different fields of human endeavour Perhaps the most important hallmark of our age is the crossover into the virtual The spread of hybrids in post reality has snowballed due to the Internet and the ease of the web based dissemination of information and disinformation New entities such as fake news have been put together using collage techniques with the result that make believe events produce real life effects Without the special analysis provided in this book this non reality generated to manipulate people is unlikely to be differentiated from authentic stories **Putin's Russia: Really Back?** Aldo Ferrari,2016-10-28 Attempts by Washington and Brussels to push Russia to the fringes of global politics because of the Ukrainian crisis seem to have failed Thanks to its important role in mediating the Iranian nuclear agreement and to its unexpected military intervention in Syria Moscow proved once again to be a key player in international politics However Russia s recovered assertiveness may represents a challenge to the uncertain leadership of the West This report aims to gauging Russia s current role in the light of recent developments on the international stage The overall Russian foreign policy strategy is examined by taking into account its most important issues Ukraine and the relationship with the West the Middle East intervention in Syria and ongoing relations with Turkey Iran and Saudi Arabia the development of the Eurasian Economic Union the Russian pivot towards Asia and China in particular The volume also analyzes if and to what extent Moscow can fulfill its ambitions in a context of falling oil prices and international sanctions American Rule Jared Yates Sexton,2020-09-15 From writer and political analyst Jared Yates Sexton comes an eye opening journey through American history that unearths and debunks the myths we ve always told ourselves Recent years have brought a reckoning in America As rampant political corruption stark inequality and violent bigotry have come to the fore many have faced two vital

questions How did we get here And how do we move forward An honest look at the past and how it s been covered up is the only way to find the answers Americans in power have abused and subjugated others since the nation s very beginning and myths of America s unique goodness have both enabled that injustice and buried the truth for generations In American Rule Jared Yates Sexton blends deep research with stunning storytelling digging into each era of growth and change that led us here and laying bare the foundational myths at the heart of the American imagination Stirring unequivocal and impossible to put down American Rule tells the truth about what this nation has always been and challenges us to forge a new path

Congressional Record United States. Congress,2012 The 21st Century Cold War Jeffrey Kaplan,2020-06-04 The 21st Century Cold War is a multidisciplinary approach to understanding the pattern of Russian interference in the internal affairs of other nations suggesting that what in the Cold War was a simple conflict of East vs West has expanded into a conflict between Russia and two increasingly separate Wests The book begins with an examination of the structure of the Cold War and post Cold War world and subsequently explores Russian interference by overt grey and covert means including but not limited to cyberespionage fake news and the use of what in the Cold War would have been called front groups and agents of influence The approach encompasses both historic and contemporary themes with the question of whether the Cold War between East and West capitalism and communism is a thing of the past or does it continue today in new ideological guises as a central theme Expert contributors explore what the motivations and implications for the pattern of Russian interference in the political processes of other states would be and what new coalitions of actors are taking shape both for and against Russian activities With a series of historical and contemporary case studies focusing on the origins and contemporary dimensions of Russian information warfare and exploring the issues involved from every perspective The 21st Century Cold War will be of great interest to scholars of Security and Strategic Studies International Relations and Cold War History as well as policy makers and security professionals The chapters were originally published as a special issue of Terrorism and Political Violence

Europe's World Knud Erik Jørgensen,Tonny Brems Knudsen,Laura Landorff,2025-05-27 The EU s international environment is increasingly characterized by power politics great power rivalry ideological contestation and war This has challenged the liberal internationalist identity that has been at the heart of the EU since its birth This book examines how the EU has responded to these new realities It analyses the introduction of a flurry of concepts including European sovereignty strategic autonomy civilization responsibility and strategic compass and asks whether these signal a reconsideration of foreign policy objectives a new strategic orientation or possibly a paradigm shift The book develops a theoretical framework on policy paradigms worldviews grand strategy strategic narratives and the drivers of institutional change followed by chapters on the anti liberal challenge the evolution of the EU framework of ideas the search for grand strategy and strategic autonomy the response to Russian aggression and imperial thinking and continuity and change in EU unity working groups green leadership and strategic communication *Building States and Markets After Communism*

Timothy Frye,2010-06-07 This book examines how democracy influences state building and market building in 25 post communist countries from 1990 to 2004 Television and Presidential Power in Putin's Russia Tina Burrett,2010-12-14 As a new president takes power in Russia this book provides an analysis of the changing relationship between control of Russian television media and presidential power during the tenure of President Vladimir Putin It argues that the conflicts within Russia s political and economic elites and President Putin s attempts to rebuild the Russian state after its fragmentation during the Yeltsin administration are the most significant causes of changes in Russian media Tina Burrett demonstrates that President Putin sought to increase state control over television as part of a larger programme aimed at strengthening the power of the state and the position of the presidency at its apex and that such control over the media was instrumental to the success of the president s wider systemic changes that have redefined the Russian polity The book also highlights the ways in which oligarchic media owners in Russia used television for their own political purposes and that media manipulation was not the exclusive preserve of the Kremlin but a common pattern of behaviour in elite struggles in the post Soviet era Basing its analysis predominately on interviews with key players in the Moscow media and political elites and on secondary sources drawn from the Russian and Western media the book examines broad themes that have been the subject of constant media interest and have relevance beyond the confines of Russian politics **A Dangerous Slide Backwards** United States. Congress. Senate. Committee on Foreign Relations. Subcommittee on International Operations and Organizations, Human Rights, Democracy, and Global Women's Issues,United States. Congress. Senate. Committee on Foreign Relations. Subcommittee on European Affairs,2014
