

Research Paper Outline Example (for a Psychology paper)

I. Introduction

- A. *Topic:* Prejudice and Social Influence
- B. *Issue:* Social influences affect peoples' view of one another.
- C. *Thesis:* Prejudice is a social condition that can arise as a result of the conformity of people within a social group or society.

II. Prejudice based on stereotypes is a major problem in our society

- A. Comes from social stereotypes that influence a person's attitudes directly.
- B. Is usually used to pass judgment on one person who is considered part of a specific group.
- C. Can occur in any form
 - 1. Race
 - 2. Culture
 - 3. Sex
 - 4. Vocation

III. Prejudice develops early within people, as children are the most likely to begin developing ideas based on what they are exposed to.

- A. Children
 - 1. Learn quickly and pick up on what is around them easily
 - 2. Are impressionable, especially when given specific ideas by adults.
 - 3. Bring problems to the next generation, as they will then pass on these attitudes to their children creating a never-ending cycle.
 - 4. Social learning theory says that today's children are learning from everything and everyone, making it difficult to weed out and negative issues that they encounter.

IV. Psychodynamic Therapy

- A. Deals with unconscious thought, as this is where many fears and beliefs come from.
- B. Uncovers subconscious memories that can be affecting an individual without their knowledge.
- C. Uncovers repressed trauma, which can also be causing attitudes and thoughts without the individual's knowledge.
- D. Can help locating reasons why prejudice exists, since the attitudes towards others are often pre-standing, without any reason for their existence.

Psychology Research Paper Outline:

Methods in Psychological Research Annabel Ness Evans, Bryan J. Rooney, 2008 Methods in Psychological Research is pedagogically driven interactive and highly applied to engage and motivate students This brief and basic introduction to research methods in psychology is presented in a relaxed style at a moderate level of detail and with a rich mix of pedagogy to engage and motivate students from a variety of backgrounds and academic preparation The authors focus on applying concepts students are learning and they emphasize doing research with simple in text exercises that provide a more interactive feel than found in most methods textbooks They also provide examples of real psychology research both from the research literature and uniquely from student research projects This friendly and supportive presentation of the basics conveys to students the excitement and fun of the research enterprise and involves them in doing research not just memorizing another term for an exam *The Psychology Research Handbook* Frederick T. L. Leong, James T. Austin, 2006 This research guide includes practical instructions for graduate students and research assistants on the process of research planning and design data collection and analysis and the writing of results It also features chapters co written by advanced research students providing real world examples Research Methods in Psychology Paul G. Nestor, Russell K. Schutt, 2014-03-12 The Second Edition of Paul G Nestor and Russell K Schutt s successful and unique Research Methods in Psychology Investigating Human Behavior draws from substantive research stories to illustrate how research is presented while systematically unifying the entire research process within a conceptual framework This accessible text examines engaging research studies and examples considering research ethics throughout This is a great text that emphasizes the important concepts within research methods The resources are excellent they incorporate up to date research and technology and introduce the student to empirical articles and the information is presented in a way that challenges the student to apply the material Maria Pacella Kent State University The text is comprehensive It covers a wide variety of information without being overwhelming This is a very good textbook for an introductory course in research methods I like that its focus is on psychological research specifically Angela M Heads Prairie View A M University Doing Collaborative Research in Psychology Jerusha B. Detweiler-Bedell, Brian Detweiler-Bedell, 2012-09-04 Doing Collaborative Research in Psychology offers an engaging journey through the process of conducting research in psychology Using an innovative team based approach this hands on guide will assist undergraduates with their research in their courses and in collaboration with faculty or graduate student mentors The focus on this team based approach reflects the collaborative nature of research methods and experimental psychology Students learn how to work as a team generate creative research ideas design and pilot studies recruit participants collect and analyze data write up results in APA style and prepare and give formal research presentations Students also learn practical ways in which they can promote their research skills as they apply to jobs or graduate school A unique feature to this book is the ability to read chapters of the text either sequentially or separately
