Research Anthology on Advancements in Women's Health and Reproductive Rights Management Association, Information Resources, 2022-05-06 Reproductive health and rights are critical topics in today's society as laws and policies are continuously debated and adjusted across the world There are many different outlooks on these issues and different countries have widely varying laws in place at present In order to better understand where the world currently is regarding these pressing discussions further study is needed on the status of women's reproductive rights The Research Anthology on Advancements in Women's Health and Reproductive Rights provides a thorough review of the current research available regarding reproductive health The book discusses how various countries and regions are handling reproductive rights as well as current issues women face within their reproductive health journeys Covering topics such as sexual health gender and pregnancy this major reference work is ideal for nurses government officials policymakers healthcare professionals researchers scholars academicians practitioners instructors and students Women Empowerment and Well-Being for Inclusive Economic Growth Dixit, Shailja, Moid, Sana, 2020-11-06 As women become more outspoken regarding their right to equal pay it has been noted that gender equality with women earning as much as men would enrich the global economy These studies have shown that equal pay equal hours and equal participation for women in the workforce could lead to a global wealth jump and potentially create knock on benefits such as lower malnutrition and child mortality rates Women Empowerment and Well Being for Inclusive Economic Growth is a collection of innovative research that makes the case for understanding development in economic terms as well as in terms of well being empowerment and participation and uncovers the role of empowering women and achieving gender equality in sustainable development Research work and cases related to participation of a women's labor force in the economic development of the country the place of women in society their contribution to the social development of their country and the problems faced by them are key features in the book While highlighting topics including gender inequality self worth and industrial policy this book is ideally designed for

economic analysts managers policymakers business professionals government officials entrepreneurs and business students

Adolescence in India Swati Patra, 2022-03-08 This book provides a comprehensive in depth and practical approach towards an understanding of the multitude challenges of adolescence in India Going beyond the traditional storm stress and strain view of adolescents it focuses on the strengths of adolescents and highlights a community approach towards an understanding of adolescents The book is divided into three sections Section 1 introduces the concept of adolescence in the Indian context discusses the identity development and peer relations in adolescents Section 2 deliberates on issues and challenges such as depression suicide violence substance use and behavioural addiction keeping in mind the Indian socio cultural context It also highlights concerns of adolescents related to disabilities Section 3 provides various prevention and intervention measures including both individual based and group based interventions to deal with these challenges thereby facilitating the journey of adolescents It helps the reader to focus on the positive development of the adolescents The book is useful for students in psychology education counselling mental health and development It is also a great resource book for professionals working in the field of health in general and mental health in particular **Manasshasta (Psychology**

Marathi Edition) Ciccarelli, **Psychology: South Asian Edition** Ciccarelli, Meyer, 2008-09 *Stress and Students* Dr. Anil Kumar Agnihotri, 2018-05-28 The 17th century has been called the Age of enlightenment the 18th The Age of Reason the 19th Age of progress and the 20th The Age of Anxiety Calbraith 1977 The 21st Technology Revolution Marked by knowledge revolution the information explosion and the associated acceleration of changes in technology social structure occupations and organizations make for an increasing demands on the individual s capacity to adapt resulting difficulty in finding a harmony between the individual and the environment which causes a disequilibrium in the body mind and soul of the individual referred as stress It is an unavoidable feature of modern living Since it affects all age groups of the population it needs to be fought investigated and managed to have a balanced and healthy society Language Acquisition in Diverse Linguistic, Social and Cognitive Circumstances, volume II Maria Garraffa, Gary Morgan, Theodoros Marinis, Maria Teresa Guasti, 2023-10-10 Labour Power Roberto Ciccarelli, 2021-05-04 This book offers a critical account of Karl Marx s dazzling theory of labour power which is also one of the most influential concepts in the history of contemporary philosophy Labour power is the dark side of the digital revolution Working men and women are invisible and treated like human service flesh and blood automatons or organic extensions of a machine that produces data on its own Automation is viewed as something magic made possible by algorithms whose life is independent of human beings Labour power however has not disappeared Without drivers Uber cannot connect customers on its platform without searches on its browser Google grinds to a halt without us Facebook or Instagram is desert Labour power is the dwarf hidden inside the puppet of technology that allows algorithms to be intelligent and make the biggest profits in the history of capitalism The invisible centrality of labour power is the political enigma of our times Today a new account of the theory of labour power is needed more than ever in order to

understand the political economy of digital capitalism on new grounds Unlike a long tradition in the history of work labour power is not only the work or the data it produces but a potency that does not coincide with its current commodification The actuality of labour power does not exhaust the virtuality that can be actualised by its faculty Even when reduced to a commodity labour power does not exhaust the potency of its being otherwise Immersed in the constant propaganda that boosts the latest technological inventions we neglect the fact that this wealth is produced by us and that it could be ours precisely because it is a part of our potential to be other than what we are at present This book is a vibrant invitation to consider the fact that we are always connected with the potency that is constantly at work in our life If this were not the case we would not be alive If we do not strive to become consciously and collectively active we will never know **Index**

Medicus ,2001 Vols for 1963 include as pt 2 of the Jan issue Medical subject headings **Re-Envisioning and Restructuring Blended Learning for Underprivileged Communities** Bosch, Chantelle,Laubscher, Dorothy

Joy,Kyei-Blankson, Lydia,2021-05-14 Challenges in the educational arena are not new phenomena However with the recent outbreak of the COVID 19 pandemic researchers and educators have been made even more aware of the need for a paradigm shift in education Blended learning as opposed to fully online learning or traditional face to face teaching has been well researched and has been found to have the potential to provide better educational solutions in challenging contexts These contexts range from pandemic situations where social distancing is the order of the day to financial and time constraints regarding full time study as well as limited physical capacity at institutions Blended learning solutions are often designed for resourceful institutions and cannot be easily implemented in developing countries and in communities where resources are limited Typical issues like connectivity accessibility lack of suitable devices and affordability need to be taken into consideration and in cognizance of blended learning interventions These challenges are often neglected in blended learning research but are critical discussions to be had Re Envisioning and Restructuring Blended Learning for Underprivileged Communities shares how institutions in the developing world and less privileged communities have re imagined and restructured blended education to enhance teaching and learning for underprivileged communities This book aims to address blended learning solutions across institutional program course and activity levels The chapters will cover a variety of learning environments from rural settings to less developed countries and more and explore the programs and courses designed to improve student success and accessibility in diverse student populations This book is ideally intended for teachers administrators teacher educators practitioners stakeholders researchers academicians and students who are interested in blended learning opportunities in less privileged settings and to underserved and marginalized populations
