Public Health Mary Jane Schneider Chapter 3:

Introduction to Public Health Mary-Jane Schneider, 2004 *Unequal Before Death* Marcelline Block, Christina Staudt, 2012-03-15 Death has been deemed the great equalizer but each journey towards our shared ultimate fate is unique. The length of our lives, the quality of our last days, how our deaths are perceived by others and the handling of our remains are governed by nature and many socio-cultural factors. *Unequal Before Death* is an edited collection that addresses inequalities surrounding death from the perspectives of scholars in a wide range of humanistic and social science disciplines including art history, anthropology, film and media studies, political science, popular culture, psychology, religion, sociology, and statistics. The majority of the chapters of this interdisciplinary anthology are revised versions of papers presented at the second Austin H. Kutscher Memorial Conference entitled *Unequal Before Death*, organized by the Columbia University Seminar on Death in March 2010 and attended by leading experts in academia, healthcare, and the not-for-profit sector. The purpose of this volume is to bring attention to the many inequalities affecting the end of life experience and to encourage collaborative research and action that can improve the experience for the dying and those around them. This volume does not question the truism of death as the ultimate equalizer but rather seeks to explore the many ways in which the final journey is not equal.

Killer Care James B. Lieber, 2015-12-10 A succinct, disturbing report on the prevalence of malpractice in modern medicine. An imperative analysis that begs for discussion by industry watchdogs and consumers alike. Kirkus Reviews: Brilliant scholarly. A reading of *Killer Care* makes an immediate personal investment in our own, safer, patient-centered care, logical and worthwhile. *Killer Care* is strongly advised. T. Michael White, M.D., former VP and clinical professor of medicine, University of Pittsburgh Medical Center, author of *Unsafe to Safe In*. *Killer Care*: James Lieber uncovers systemic failures and lack of safeguards in patient safety. His wake-up call not only informs but provides specific and actionable recommendations for patients and their families. His analysis also points to system fixes that will make being a patient safer for all of us. Barbara Mittleman, M.D., former director, Program on Private-Public Partnerships, Office of Science Policy, National Institutes of Health, 2006-2012. Each year in the U.S., a quarter of a million deaths are attributable to medical error. If the number shocks on some level you already knew it was so. Everyone knows someone, perhaps it was yourself, who has suffered miserable treatment in American hospitals, part of the most elaborate, most extensive, and expensive health care system in the world. But it is perhaps the most inefficient. Misdiagnoses, wrong prescriptions, operating on the wrong patient, even operating on the wrong limb and amputating it—these are the consequences of rampant carelessness, overwork, ignorance, and hospitals trying to get the most out of their caregivers and the most money out of their patients. What are we to do? *Killer Care* lays out the very real danger each of us faces whenever we enter a hospital. But more than that, it spells out what we can do to mitigate that risk. The book is also the story of the remarkable heroes fighting this plague of medical errors: patients and their families, but also doctors and nurses. Starting about twenty years ago, a number of victims and even some perpetrators of these errors began a social

movement that offers us vital protections when we are most vulnerable they have begun a cultural shift that is transforming every facet of health care
