Employment and Education in Sri Lanka Angela W. Little, Siri T. Hettige, 2014-05-23 Since the late 1970s Sri Lanka has  
undergone a socio economic transformation from protectionism towards economic liberalisation and increasing integration  
into the world economy Through a systematic comparison of these periods of economic change 1956 1977 and 1977 to the  
present Angela W Little and Siri T Hettige examine the impact of this transformation on education youth employment and  
equality of opportunity in Sri Lanka The book charts Sri Lanka s shift from a predominantly agricultural economy to one  
dominated by services and manufacturing a reduction in unemployment rising educational and occupational levels  
expectations and achievements and a reduction in poverty In turn it reveals a growing role for the private sector and foreign  
interests in post secondary education and a modest growth in private education at the primary and secondary levels as well  
as widening social disparities in access to qualifications training and skills The Sri Lankan experience of and engagement  
with globalisation has been tempered by a long running ethnic conflict that hindered economic and social development and  
diverted considerable public funds into defence and war Now that the war is won the challenge is how to invest in human  
resource development and the fulfilment of the expectations of youth from all ethnic and social groups This challenge  
requires serious policy analysis the generation of more state revenues the reallocation of existing public resources and a  
political commitment to the winning of a sustainable peace and stability This book makes an important contribution to the  
broader international literature on the implications of globalisation for education policy and practice and to the interaction of  
exogenous and endogenous forces for educational change It deals with the tension between the high social demand for  
education and the growing demand for specialised skills in a changing economy As such it has a wide interdisciplinary appeal  
across education policy and politics Asian education South Asian society youth policy sociology of education political  
economy of social change and globalisation      Report of the Northern Ireland Schools Examinations Council Northern
