The SUZUKI RG 150 E/ES has been developed as a new generation motorcycle to the RG-models. It is packed with highly advanced design concepts including a liquid cooled engine, a crankcase reed valve, a Automatic Exhaust Timing Control (A.E.T.C.) a Digital C.D.I. ignition system a link type rear suspension. Combined with precise control and easy handling the RG 150 E/ES provides excellent performance and outstanding riding comfort.

This service manual has been produced primarily for experienced mechanics whose job is to inspect, adjust, repair and service SUZUKI motorcycle. Apprentice mechanics and "do it yourself" mechanics will also find this manual to be an extremely useful guide.

The RG 150 E/ES, manufactured to standard specifications, is the main subject matter of this manual. However, the RG 150 E/ES machines distributed in your country might differ in minor respects from the standard-specification and, if they do, it is because some minor modifications (which are of no consequence in most cases as far as servicing is concerned) had to be made to comply with the statutory requirements of your country.

This manual contains up-to-date information at the time of its issue. Later made modifications and changes will be explained to each SUZUKI distributor in respective markets, to whom you are kindly requested to make query about updated information, if any.
