**New Adult Fiction** Jodi McAlister, 2021-11-18 The term new adult was coined in 2009 by St Martin's Press when they sought submissions for a contest for fiction similar to YA that can be published and marketed as adult a sort of older YA or new adult However the literary category that later emerged bore less resemblance to young adult fiction and instead became a sub genre of another major popular genre romance This *Element* uses new adult fiction as a case study to explore how genres develop in the twenty first century literary marketplace It traces new adult's evolution through three key stages in order to demonstrate the fluidity that characterises contemporary genres It argues for greater consideration of paratextual factors in studies of genre Using a genre worlds approach it contends that in order to productively examine genre we must consider industrial and social factors as well as texts

**Plato's Second Republic** André Laks,2025-09-23 An argument for why Plato s Laws can be considered his most important political dialogue In Plato s Second Republic Andr Laks argues that the Laws Plato s last and longest dialogue is also his most important political work surpassing the Republic in historical relevance Laks offers a thorough reappraisal of this less renowned text and examines how it provides a critical foundation for the principles of lawmaking In doing so he makes clear the tremendous impact the Laws had not only on political philosophy but also on modern political history Laks shows how the four central ideas in the Laws the corruptibility of unchecked power the rule of law a middle constitution and the political necessity of legislative preambles are articulated within an intricate and masterful literary architecture He reveals how the work develops a theological conception of law anchored in political ideas about a god divine reason that is the measure of political order Laks s reading opens a complex analysis of the relationships between rulers and citizens their roles in a political system the power of reason and persuasion as opposed to force in commanding obedience and the place of freedom Plato s Second Republic presents a sophisticated reevaluation of a philosophical work that has exerted an enormous if often hidden influence even into the present day

The Otherworlds of Liz Jensen Helen Esther Mundler, 2016 The first study of one of the most innovative of contemporary novelists Liz Jensen and of the otherworlds in her fiction Liz Jensen a British author of eight novels is among today's most innovative writers Her literary thrillers occupy the terrain between realism and science fiction This first study of Jensen centers on the very diverse otherworlds she creates in each of her novels which can consist of an indeterminate space of ontological instability a zone in which real and unreal converge to destabilize the realist text as in *Egg Dancing* 1995 and *The Ninth Life of Louis Drax* 2004 In other novels the otherworld relies on defamiliarization thus in *War Crimes for the Home* 2002 the experience of war is transformed by being seen from a woman's perspective In still other cases the otherworld spans the novel's entire topos as in *The Paper Eater* 2000 the full blown utopia at the center of Jensen's

oeuvre Jensen's work approaches contemporary social issues such as religious fundamentalism ecological disaster and assisted procreation Simultaneously it displays a number of characteristics of erudite fiction including self reflexivity inter and intratextual reference parody pastiche and burlesque Notwithstanding the popular elements of Jensen's work Helen E Mundler's study adopts a rigorously academic approach to it referencing canonical works but also more innovative texts particularly by contemporary women writers as points of comparison Helen E Mundler is Senior Lecturer in English Studies at UPEC Universit Paris Est Crteil with a research affiliation at the Universit Paris X Nanterre La Defense
