THE GERMAN DISASTER Augustin Ostace, 2021-01-22 The third book in the gloomy Western destiny called *The End of the West*. *The End of America*. *The German Disaster*. Here at the end of history we came to this indolent utopian unrealistic West full of arrogance and ignorance believing itself unique in history and irreplaceable in the world. This sad finality is the fulfillment of political welfare and correctness here at the end of Western times where the free world was trumpeted the world of well-being existing only in the empty and stupid imaginations of its leaders its populations naive and unrealistic to the cruel and harsh realities of the world. Here at the end of the historical road are the great democratic conquests of its revolutions of the last centuries mentioning here the French Revolution 1789 the American Revolution 1776 the Russian Revolution 1917 for freedom for justice for fraternity which they were extremely obsessed with the propaganda and historical thinking of the West. Here in generalized chaos are present now in the historical *hinc et nunc* the abuses of his liberties the anarchies from the abstract concept of freedom his embarrassing exaggerations from the structures of science and consciousness. Here and now the West has revealed itself in all its hidden evils of capitalist ideologies propaganda and manipulations in all its shocking truths beautified by trumpets and rock and roll music by movies full of carrots and sick imaginations creating and his own phobias and obsessions with anxieties beyond any classic psychoanalytic analysis. Here now in the midst of the super hot summer of 2020 the whole West the whole of *Abendland* is also through the Corona pathologies and through the immense economic falls at the height of its indisputable intractable and unsolvable multi-crises accumulated in centuries of blindness decades of deafness years of empty readings. Here and now Here and now is the *END OF THE WEST* mocking real values some created by him but viewed and treated with indifference rejection and oblivion including here the alleged providential protection of his destiny synthesized in *God Bless America*. Here and now it is the crash of Western banking financial moral actually immoral artistic crashes synthesizing a huge constant of imbecility acting in all directions of the fissions of society. And this is what a Nonapocalyptologist a Nonarmaghedo nologist a Nondezastrologist says but who sees and lives live these immense Western unrealities but with the real courage to write and describe these catastrophic Western collapses. The last Germanologist.

Early Christianity in South-West Britain Elizabeth Rees, 2020-03-30 This book offers a new assessment of early Christianity in south west Britain from the fourth to the tenth

centuries a rich period which includes the transition from Roman to native British to Saxon models of church The book will be based on evidence from archaeological excavations early texts and recent critical scholarship and cover Wessex Devon and Cornwall In the south west Wessex provides the greatest evidence of Roman Christianity The fifth century Dorset villas of Frampton and Hinton St Mary with their complex baptistery mosaics indicate the presence of sophisticated Christian house churches The fact that these two Roman villas are only 15 miles apart suggests a network of small Christian communities in this region The author uses evidence from St Patrick s fifth century Confessions to describe how members of a villa house church lived Wessex was slowly Christianised in Gloucestershire the pagan healing sanctuary at Chedworth provides evidence of later use as a Christian baptistery at Bradford on Avon in Wiltshire a baptistery was dug into the mosaic floor of an imposing villa which may by then have been owned by a bishop In Somerset a number of recently excavated sites demonstrate the transition from a pagan temple to a Christian church Beside the pagan temple at Lamyatt later female burials suggest unusually a small monastic group of women Wells cathedral grew beside the site of a Roman villa s funeral chapel In Street a large oval enclosure indicates the probable site of a Celtic monastery Early Christian cemeteries have been excavated at Shepton Mallet and elsewhere Lundy Island off the Devon coast provides evidence of a Celtic monastery with its inscribed stones that commemorate early monks At Exeter a Saxon anthology includes numerous riddles one of which describes in detail the production of an illuminated manuscript in a south western monastery Oliver Padel s meticulous documentation of Cornish place names has demonstrated that of all the Celtic regions Cornwall has by far the highest number of dedications to a single otherwise unknown individual typically consisting of a small church and a farm by the sea These small monastic cells have hitherto received little attention as a model of church in early British Christianity and the latter part of the text focuses on various aspects of this model as lived out in coastal and in upland settlements on islands and in relation to larger Breton monasteries Study of 60 Breton sites has demonstrated possible connections between larger Breton monasteries and smaller Cornish cells
