Developing Teachers' Assessment Literacy Kim Koh, Cecille DePass, Sean Steel, 2019-07-29 Since the turn of the 21st century developing teachers assessment literacy has been recognized as one of the key levers for improving instructional practice and student learning in light of the education reforms worldwide A substantial body of literature is focused on teachers assessment literacy or teachers capacity in assessment and teachers continuing professional development in assessment As we approach the third decade of the 21st century developing teachers assessment literacy needs to be more responsive to the need of both preservice and inservice teachers who come from linguistically and culturally diverse backgrounds The authors concur that both preservice and inservice teachers in today s complex educational contexts require a deeper level of understanding of assessment Additionally teachers are highly encouraged to appreciate the history of educational assessment in different sociocultural and political contexts as well as to know how to determine the merits of a range of assessment practices best suited for their lesson planning and classroom teaching In this book the authors discuss significant aspects of developing teachers assessment literacy in different sociocultural and political contexts Based on their respective educational backgrounds academic experiences and applied fields of study each of the authors presents a critical response to the topic of assessment Their accounts represent the complexity of the subject through a breadth and range of content and perspectives By expanding the terms of reference regarding assessment the authors have developed a book with a far richer panorama on assessment as a springboard for inquiry

The Politics and Governance of Basic Education Brian Levy, Robert Cameron, Ursula Hoadley, Vinothan Naidoo, 2018-09-05 This is an open access title available under the terms of a CC BY NC ND 4 0 International licence It is free to read at Oxford Scholarship Online and offered as a free PDF download from OUP and selected open access locations All over the world economic inclusion has risen to the top of the development discourse A well performing education system is central to achieving inclusive development but the challenge of improving educational outcomes has proven to be unexpectedly difficult Access to education has increased but quality remains low with weaknesses in governance comprising an important part of the explanation The Politics and Governance of Basic Education explores the balance between hierarchical and horizontal institutional arrangements for the public provision of basic education Using the vivid example of South Africa a country that had ambitious goals at the outset of its transition from apartheid to democracy it explores how the interaction of politics and institutions affects educational outcomes By examining lessons learned from how South Africa failed to achieve many of its goals it constructs an innovative alternative strategy for making process combining practical steps to achieve incremental gains to re orient the system towards learning

Continent Formation Through Time N.M.W. Roberts, M. van Kranendonk, S. Parman, S. Shirey, P.D. Clift, 2015-02-16 The continental crust is our archive of Earth history and the store of many natural resources however many key questions about its formation and evolution remain debated and unresolved What processes are involved in the formation differentiation and

evolution of continental crust and how have these changed throughout Earth history How are plate tectonics the supercontinent cycle and mantle cooling linked with crustal evolution What are the rates of generation and destruction of the continental crust through time How representative is the preserved geological record A range of approaches are used to address these questions including field based studies petrology and geochemistry geophysical methods palaeomagnetism whole rock and accessory phase isotope chemistry and geochronology Case studies range from the Eoarchaeon to Phanerozoic and cover many different cratons and orogenic belts from across the continents

Higher Education in the Asian Century Christopher Hill,Rozilini M. Fernandez-Chung,2016-12-01 There is increasing interest in the Asian arena both as a

home for the delivery of international higher education and as a breeding ground for a new brand of sustainable domestic and international growth Academics are increasingly turning to Asia and Asian Education in order to better understand and predict the emerging trends of global education and this book will serve to provide a forum for debate of this nature The book provides an insight into the interplay of Asian and European education identifies the key areas for further development and firmly grounds the approach as one of conversation and dialogue rather than one sided dictation It also highlights the critical issues within the development of international education discusses the value and challenges of existing TNE practices as a mechanism to respond to the emerging Asian needs and provides an insight into the future direction of education in the Asian century

**Learning Science Through Drama** Debra McGregor, Dayle Anderson, 2023-01-01 This book presents a wide range of international perspectives that explore the different ways the diverse forms of drama supports learning in science It illustrates how learning science by adopting and adapting theatrical techniques can offer more inclusive ways for students to relate to scientific ideas and concepts The theatrical processes by which subject matter can be introduced thought about discussed transformed enacted and disseminated are shown to be endless The first section of the book considers different ways of theorising and applying drama in classrooms The second section provides a range of case studies illustrating how role play performance embodiment and enquiry approaches can be utilised for learning in primary secondary and tertiary education contexts The third section demonstrates how different research methods from questionnaires particular kinds of tests and even the theatrical conventions themselves can provide rich data that informs how drama impacts on learning science

Crust-Mantle Interactions and Granitoid Diversification J. Halla, M.J. Whitehouse, T. Ahmad, Z. Bagai, 2017-03-01 This Special Publication sheds light on crust formation and tectonic processes in early Earth by focusing on Archaean granitoids and related rocks from West Greenland in the North Atlantic Craton Karelia Province of the Fennoscandian Shield Eastern Dharwar and Bundelkhand cratons in the Indian Shield and Bug Complex of the Ukrainian Shield Resulting from the IGCP SIDA 599 project The Changing Early Earth this compilation of papers provides explanations on the nomenclature of Archaean granitoids and explores the petrology element and isotope geochemistry geochronology and metamorphism of granitoids and supracrustal rocks of variable metamorphic grade This volume provides information on the increase and timing of crust mantle interactions and granitoid diversification from early Archaean protoliths of island arc origin to the emergence of multi source high K calc alkaline granitoid batholiths at convergent continental margins The formation of abundant granitoid batholiths suggests a significant change in mantle dynamics and plate tectonics towards the end of the Archaean

Ore Deposits in an Evolving Earth G.R.T. Jenkin, P.A.J. Lusty, I. McDonald, M.P. Smith, A.J. Boyce, J.J. Wilkinson, 2015-01-02 Ore deposits form by a variety of natural processes that concentrate elements into a volume that can be economically mined Their type character and abundance reflect the environment in which they formed and thus they preserve key evidence for the evolution of magmatic and tectonic processes the state of the atmosphere and hydrosphere and

the evolution of life over geological time This volume presents 13 papers on topical subjects in ore deposit research viewed in the context of Earth evolution These diverse yet interlinked papers cover topics including controls on the temporal and spatial distribution of ore deposits the sources of fluid gold and other components of orogenic gold deposits the degree of oxygenation in the Neoproterozoic ocean bacterial immobilization of gold in the semi arid near surface environment and mineral resources for the future including issues of resource estimation sustainability of supply and the criticality of certain elements to society
