

Chapter 3

Budgetary Planning

Learning Objectives

When This Book Meets Its Budget, Does It Meet Its Budget, Quite?

When a company's actual sales are less than its budgeted sales, a company's operating income will be less than its budgeted income. The difference between actual and budgeted operating income is called the operating income variance. The operating income variance is the difference between actual and budgeted operating income.

The operating income variance is the difference between actual and budgeted operating income. The operating income variance is the difference between actual and budgeted operating income. The operating income variance is the difference between actual and budgeted operating income.

Operating income variance is the difference between actual and budgeted operating income. The operating income variance is the difference between actual and budgeted operating income. The operating income variance is the difference between actual and budgeted operating income.

The operating income variance is the difference between actual and budgeted operating income. The operating income variance is the difference between actual and budgeted operating income. The operating income variance is the difference between actual and budgeted operating income.
