C. Knights, 1981-06-04 This is a selection of essays by one of the most distinguished of modern literary critics L C Knights published as a companion volume to the selection of Professor Knights Shakespearean essays which appeared in 1979 The essays span almost four decades of critical work on authors as diverse as Marlowe George Herbert Clarendon and Henry James At the centre of each essay is an attempt to elicit some essential quality in the author or authors discussed Although each can be read as an isolated critical essay the different pieces are linked by a pervasive interest in the conditions social or personal out of which particular works emerged and in the way in which major works of the imagination are renewed as they are re interpreted in successive generations Throughout the underlying assumption is that literary criticism needs to be pure the result of direct exposure to particular works but that it cannot remain purely literary if only because the meaning of literature includes its effects on the lives and conduct of individual human beings *Women as Writing Subjects in High Qing China* Chengjuan Sun, 2024-07-29 In what ways did Qing gentry women s concern for gender and social propriety shape their assertions of female subjectivity and agency How did they exploit the state promotion of female virtue and Confucian morality for self fulfillment With a focus on three of the most widely acclaimed mid Qing women authors this book uses both synchronic and diachronic approaches to analyze writings on conjugal love widowhood women s

education maternal teaching boudoir objects and history illustrating their vibrant gendered revision of literati poetic convention thus proposing an alternative analytical framework that goes beyond the rigid dichotomy of compliance versus resistance *Educational Times* ,1890 **Whitman's Poetry of the Body** M. Jimmie Killingsworth,2016-08-01 This book combines literary and historical analysis in a study of sexuality in Walt Whitman s work Informed by his new historicist understanding of the construction of literary texts Jimmie Killingsworth examines the progression of Whitman s poetry and prose by considering the textual history of *Leaves of Grass* and other works Killingsworth demonstrates that Whitman s poetry of the body derives its radical power from the transformation of conventional attitudes toward sexuality traditional poetics and conservative politics The sexual relation with its promise of unity love equality interpenetration and productivity for partners becomes a metaphor for all political and social relationships including that of poet and reader The effect of the poems is protopolitical an altering of consciousness about the body s relation to other bodies a shifting of the categories of knowledge that foretells political action Killingsworth traces the interplay in Whitman s poetry between sexual and textual themes that derive from Whitman s political response to the historical turbulence of mid century America He describes a subtle shift in Whitman s prose writings on poetics which turn from a view of poetry in the early 1850s as morally and politically efficacious to a chastened romanticism in the postwar years that frees the poet from responsibility for the world outside his poems Later editions of *Leaves of Grass* are marked by the poet s deliberate repression of erotic themes in favor of a depoliticized aestheticism that views art not as a motivator of political and moral action but as an artifact embodying the soul of the genius **Speech and Drama** ,1980 *CLEP® American Literature Book + Online* Jacob Stratman, Ph.D.,2014-09-22 Earn College Credit with REA s Test Prep for CLEP American Literature Everything you need to pass the exam and get the college credit you deserve CLEP is the most popular credit by examination program in the country accepted by more than 2 900 colleges and universities For over 15 years REA has helped students pass the CLEP exam and earn college credit while reducing their tuition costs Our CLEP test preps are perfect for adults returning to college or attending for the first time military service members high school graduates looking to earn college credit or home schooled students with knowledge that can translate into college credit There are many different ways to prepare for the CLEP exam What s best for you depends on how much time you have to study and how comfortable you are with the subject matter Our test prep for CLEP American Literature and the free online tools that come with it will allow you to create a personalized CLEP study plan that can be customized to fit you your schedule your learning style and your current level of knowledge Here s how it works Diagnostic exam at the REA Study Center focuses your study Our online diagnostic exam pinpoints your strengths and shows you exactly where you need to focus your study Armed with this information you can personalize your prep and review where you need it the most Most complete subject review for CLEP American Literature Our targeted review covers the material you ll be expected to know for the exam and includes a glossary of must know terms Two full

The Lyric Self in Zen and E.E. Cummings Michael Buland Burns,Rima Snyder,2015-04-03 The Lyric Self offers a precise and thorough examination of Zen based on classical and contemporary scholarly works as well as the author s personal experience Eight themes that are common to the practice of Zen Buddhism and the poetry of E E Cummings are compared and explored with an emphasis on their respective value to contemporary psychology and education It is the premise of The Lyric Self that both Zen and Cummings poetry are profoundly concerned with individual awareness and that they both employ an unorthodox use of words to break through the static structures of conventional language and thought

Primal Roots of American Philosophy Bruce Wilshire,2010-11-01 Continuing his quest to bring American philosophy back to its roots Bruce Wilshire connects the work of such thinkers as Thoreau Emerson Dewey and James with Native American beliefs and practices His search is not for exact parallels but rather for fundamental affinities between the equally organismic thought systems of indigenous peoples and classic American philosophers Wilshire gives particular emphasis to the affinities between Black Elk s view of the hoop of the world and Emerson s notion of horizon and also between a shaman s healing practices and James s ideas of pure experience willingness to believe and a pluralistic universe As these connections come into focus the book shows how European phenomenology was inspired and influenced by the classic American philosophers whose own work reveals the inspiration and influence of indigenous thought Wilshire s book also reveals how artificial are the walls that separate the sciences and the humanities in academia and that separate Continental from Anglo American thought within the single discipline of philosophy
