*How Higher Education Feels* Kathleen M. Quinlan, 2016-09-27 Teaching and learning in higher education can evoke strong feelings including confusion anxiety boredom curiosity surprise and exhilaration These emotions affect students learning progress and overall success Teachers emotions affect how they teach and their relationships and communication with students Yet the emotional dimensions of teachers and students experiences are rarely discussed in the context of improving higher education This book addresses that gap offering short evocative case studies to spark conversation among university teachers It challenges readers to reflect on how higher education feels to explore the emotional landscape of courses and programmes they create and consider the emotional effects of messages embedded in various policies and practices Following the student lifecycle from enrolment to reunion each of the main chapters contains 10 to 15 accessible emotionally engaging poems that serve as succinct case studies highlighting how some aspect of learning teaching or development in higher education feels Each chapter also contains an expert scholarly commentary that identifies emergent themes across the cases and establishes connections to theory and practice in higher education The poems as case studies are ideal for use in faculty or educational development workshops or for individual reflection A variety of theoretical perspectives and associated reflection prompts provide lenses for variously interpreting the poems An appendix offers suggestions for structuring case discussions as part of educational development activities The book promotes a person centered discourse giving voice to previously neglected aspects of higher education and reminding us that education is essentially a human endeavor

*DISCONNECTED: The Quest For Philosophy In A Connected World* Melvin Poh, 2025-05-15 DISCONNECTED is a bold and timely exploration of modern life in the digital age Written by public intellectual and philosopher Melvin Poh this book examines how technology while connecting us across vast distances has quietly eroded our capacity for real connection meaning and inner peace Drawing from philosophy psychology and cultural commentary Poh unpacks the hidden costs of our hyper connected world the decline of deep friendship the crisis of identity the rise of distraction the poverty of attention and the quiet loneliness that lingers beneath constant online interaction With clarity and depth DISCONNECTED invites readers to step back from the noise and reflect on what it truly means to be human today It is not an anti technology manifesto but a thoughtful guide to reclaiming agency attention and authenticity in an overwhelming age This book is for anyone seeking to think more deeply live more deliberately and reconnect with what matters most

Lead With Confidence Liam Sharma, AI, 2025-01-26 Lead With Confidence dismantles the myth of the born leader arguing that impactful leadership is a skill anyone can develop through emotional intelligence adaptive decision making and ethical transparency Bridging decades of organizational research with practical strategies the book reveals how these competencies foster resilient teams and organizations even in modern challenges like remote work or globalized markets A striking insight shows that companies prioritizing psychological safety where employees feel safe to take risks often see higher profit

margins linking inclusive leadership directly to financial success By emphasizing self awareness and strategic empathy the book provides a roadmap to build trust and inspire innovation challenging outdated hierarchical models Structured into three sections the guide progresses from core frameworks to real world applications It combines behavioral economics crisis management studies and tools like the Trust Audit to diagnose team morale Unique interdisciplinary connections from cognitive psychology to sociology help leaders mitigate biases and navigate power dynamics Readers gain actionable techniques such as scenario planning matrices for high stakes decisions grounded in data yet adaptable to diverse industries Unlike generic advice **Lead With Confidence** merges rigor with accessibility using case studies like pandemic era ethical dilemmas to illustrate timeless principles Tailored for professionals aiming to lead with integrity it positions leadership as an evolving practice blending self help motivation with evidence based management science for lasting impact     **Popular**

**A Game with the Mind** John A. Fosse,2022-08-01 A Game with the Mind to See What You Can Find reveals what is truly in the mind and heart of the reader Through the exercises and examples carefully sequenced for progressive learning one will experience both the why and how of the personal poetic experience The instructive flow of A Game with the Mind leads the reader through the process of learning about one s innermost self One will find the advantage of dealing with one s own adversities emotions or even successes in a way that will lead to solutions understandings and even revelations about oneself The greatest difficulty about understanding the value of poetry lies in its most valued use It is not to beautify speech as much as it is to learn of one s innermost thoughts pertaining to any situation that is emotionally spiritually or physically felt The beauty of poetry comes through the illuminating voice of the inner self This book leads one to this objective The how of poetry seems to be the most elusive for the beginner How or where does one begin and how does one continue This book teaches a simple methodology for the beginner It points the way to extract feelings from your mind and heart that you are unaware of It creates an aha for the soul in seeing solutions to problems or finding peace through new understanding In essence this book is either a self help book or an English teacher s textbook for poetry The book progressively works through assignments from the simple basic poetry on toward most styles of poetry of the last two to three hundred years It shows how these can be used today to express our varied feelings and emotions
