The Fox TV series 24 might have been in production long before its premier just two months after 9 11 but its storyline and that of many other television programs has since become inextricably embedded in the nation's popular consciousness This book marks the first comprehensive survey and analysis of War on Terror themes in post 9 11 American television critiquing those shows that either blindly or intentionally supported the Bush administration's security policies Stacy Takacs focuses on the role of entertainment programming in building a national consensus favoring a War on Terror taking a close look at programs that comment both directly and allegorically on the post 9 11 world In show after show she chillingly illustrates how popular television helped organize public feelings of loss fear empathy and self love into narratives supportive of a controversial and unprecedented war Takacs examines a spectrum of program genres talk shows reality programs sitcoms police procedurals male melodramas war narratives to uncover the recurrent cultural themes that helped convince Americans to invade Afghanistan and Iraq and compromise their own civil liberties Spanning the past decade of the ongoing conflict she reviews not only key touchstones of post 9 11 popular culture such as 24 Rescue Me and Sleeper Cell but also less remarked upon but relevant series like JAG Off to War Six Feet Under and Jericho She also considers voices of dissent that have emerged through satirical offerings like The Daily Show and science fiction series such as Lost and Battlestar Galactica Takacs dissects how the War on Terror has been broadcast into our living rooms in programs that routinely offer simplistic answers to important questions Who exactly are we fighting Why do they hate us and she examines the climate of fear and paranoia they've created Unlike cultural analyses that view the government's courting of Hollywood

as a conspiracy to manipulate the masses her book considers how economic and industry considerations complicate state media relations throughout the era Terrorism TV offers fresh insight into how American television directly and indirectly reinforced the Bush administration's security agenda and argues for the continued importance of the medium as a tool of collective identity formation It is an essential guide to the televisual landscape of American consciousness in the first decade of the twenty first century Peterson's Guide to Graduate Programs in the Humanities, Arts, and Social Science ,1991

All or Nothing Michael Wolff,2025-02-25 NEW YORK TIMES BESTSELLER The author of Fire and Fury delivers a breathtaking insider account of the 2024 Trump campaign undoubtedly the wildest most unpredictable campaign in U S history including multiple criminal trials two assassination attempts and a sudden switch of opponents All or Nothing takes readers on a journey accompanying Donald Trump on his return to power as only Michael Wolff the foremost chronicler of the Trump era can do it As Trump cruelly and swiftly dispatches his opponents heaps fire and fury on the prosecutors and judges who are pursuing him and mocks and belittles anyone in his way including the president of the United States this becomes not just another election but perhaps both sides say the last election The stakes could not be clearer Either the establishment destroys Donald Trump or he destroys the establishment What soon emerges is a split screen reality On one side a picture that could not be worse for Trump an inescapable perhaps mortal legal quagmire on the other side an entirely positive political outlook overwhelming support within his party ever rising polling numbers and lackluster opposition Through personal access to Trump's inner circle Wolff details a behind the scenes revealing landscape of Trumpworld and its unlikely cast of primary players as well as the candidate himself the most successful figure in American politics since arguably Roosevelt but who might easily seem to be raving mad Threading a needle between tragedy and farce the fate of the nation the liberal ideal and democracy itself All or Nothing paints a gobsmacking portrait of a man whose behavior is so unimaginable so uncontrolled so unmindful of cause and effect that it defeats all the structures and logic of civic life And yet here in one of the most remarkable comebacks in American political history Trump is victorious This is not just a story about politics It is a vivid exposé of the demons discord and anarchy the fire fury and future of American life under Trump
