Fishman, 2016-11-22 An incisive narrative history of the Islamic State from the 2005 master plan to reestablish the Caliphate to its quest for Final Victory in 2020 Given how quickly its operations have achieved global impact it may seem that the Islamic State materialized suddenly In fact al Qaeda s operations chief Sayf al Adl devised a seven stage plan for jihadis to conquer the world by 2020 that included reestablishing the Caliphate in Syria between 2013 and 2016 Despite a massive schism between the Islamic State and al Qaeda al Adl s plan has proved remarkably prescient In summer 2014 ISIS declared itself the Caliphate after capturing Mosul Iraq part of stage five in al Adl s plan Drawing on large troves of recently declassified documents captured from the Islamic State and its predecessors counterterrorism expert Brian Fishman tells the story of this organization s complex and largely hidden past and what the master plan suggests about its future Only by understanding the Islamic State s full history and the strategy that drove it can we understand the contradictions that may ultimately tear it apart *Manual de informaciones* , 2007 **Mission Creep** Gordon Adams, Shoon Murray, 2014-12-12 Mission Creep The Militarization of US Foreign Policy examines the question of whether the US Department of Defense DOD has assumed too large a role in influencing and implementing US foreign policy After the Cold War and accelerating after September 11 the United States has drawn upon the enormous resources of DOD in adjusting to the new global environment and challenges arising from terrorism Islamic radicalism insurgencies ethnic conflicts and failed states Contributors investigate and provide different perspectives on the extent to which military leaders and DOD have increased their influence and involvement in areas such as foreign aid development diplomacy policy debates and covert

operations These developments are set in historical and institutional context as contributors explore the various causes for this institutional imbalance The book concludes that there has been a militarization of US foreign policy while it explores the institutional and political causes and their implications Militarization as it is used in this book does not mean that generals directly challenge civilian control over policy rather it entails a subtle phenomenon wherein the military increasingly becomes the primary actor and face of US policy abroad Mission Creep s assessment and policy recommendations about how to rebalance the role of civilian agencies in foreign policy decision making and implementation will interest scholars and students of US foreign policy defense policy and security studies as well as policy practitioners interested in the limits and extents of militarization
