Copyright Office,1972 **Play Among Books** Miro Roman,Alice_ch3n81,2021-12-06 How does coding change the way we think about architecture This question opens up an important research perspective In this book Miro Roman and his AI Alice_ch3n81 develop a playful scenario in which they propose coding as the new literacy of information They convey knowledge in the form of a project model that links the fields of architecture and information through two interwoven narrative strands in an infinite flow of real books Focusing on the intersection of information technology and architectural formulation the authors create an evolving intellectual reflection on digital architecture and computer science Star Pyramid Ian Stewart,2025-07-11 The pyramids of ancient Egypt were colossal machines intended to carry powerful rulers to the stars The modern one was the same In the mid 2100s Earth is in decline Colonies and mining around distant stars are needed to deal with resource shortages and population growth But those require faster than light travel A Nobel winning physicist and a maverick mathematician have argued that FTL travel is a theoretical possibility but only by using the mysterious superheavy element 126 mahabhavium It is being created atom by atom in vast accelerators but not in useful quantities Everything changes when mahabhavium is discovered spectroscopically in gas clouds surrounding a neutron star 400 light years away The Star Pyramid project is born A pyramid shaped starship travelling just below the speed of light Star Pyramid can reach the gas clouds in around 400 years 98 years from the perspective of the crew who will spend most of the trip in suspended animation anyway It will harvest mahabhavium and use a small fraction to return to Earth immediately A massive concerted global effort provides the resources needed for Star Pyramid to launch in 2169 but not without critics on Earth and potential saboteurs on board What could possibly go wrong Another thought provoking science fiction tour de force from Ian Stewart in an innovative documentary style narrated by various of the main characters involved
