N. Prasad, 2022-07-14 The Poetry Of Philip Larkin A Study In Long Perspectives By S N Prasad The present book is an innovative attempt to give the Philip Larkin criticism a new direction Early critical writings on Larkin for the most part tried to show him as a provincial poet and his poetic imagination as of a middle brow kind However soon some perceptive readers of his poetry found some of its real value as a result of which he is now regarded as one of the major British post modern poets This book has tried to show that Philip Larkin in his poetry tries to see man in his

present existential condition and he sees his future prospects as a species in very long perspectives and in this respect besides his many faceted merit as a true poet he can and should be seen in the company of great mainstream scientists philosophers creative writers and thinkers Philip Larkin in his major poems aims at giving a therapeutic touch to the ailing human culture This book has a long INTRODUCTION which tries to show the true origins of man his physiology and his present psycho social condition Views of reputed creative writers scientists philosophers and thinkers have been referred to in this connection In the three middle sections of the book thirty of Larkin s poems taken from his three major volumes have been analyzed individually at some length These analyses reveal some of the very important but hitherto unrevealed aspects of his poetry

Navigating the Transnational in Modern American Literature and Culture Tara Stubbs,Doug Haynes,2017-03-16 This study develops the important work carried out on American literature through the frameworks of transnational transatlantic and trans local studies to ask what happens when these same aspects become intrinsic to the critical narrative Much cultural criticism since the 1990s has sought to displace perceptions of American exceptionalism with broader notions of Atlanticism transnationalism world system and trans localism as each has redefined the US and the world more generally This collection shows how the remapping of America in terms of global networks and as a set of particular localities or even glocalities now plays out in Americanist scholarship reflecting on the critical consequences of the spatial turn in American literary and cultural studies Spanning twentieth and twenty first century American poetry fiction memoir visual art publishing and television and locating the US in Caribbean African Asian European and other contexts this volume argues for a re modelling of American ness with the transnational as part of its innate rhetoric It includes discussions of travel migration disease media globalization and countless other examples of inflowing Essays focus on subjects tracing the contemporary contours of the transnational such as the role of the US in the rise of the global novel the impact of Caribbean history on American thought and vice versa transatlantic cultural and philosophical genealogies and correspondences and the exchanges between the poetics of American space and those of other world spaces Asking questions about the way the American eye has traversed and consumed the objects and cultures of the world but how that world is resistant this volume will make an important contribution to American and Transatlantic literary studies *The Literary Gazette and Journal of the Belles Lettres, Arts, Sciences, &c* ,1837
