didactic poetry poets frequently make use of imagery similes metaphors acoustic images models exempla fables allegory personifications and other tropes as a means to elucidate and convey their didactic message In this volume which arose from an international conference held at the University of Heidelberg in 2016 we investigate such phenomena and explore how they make the unseen visible the unheard audible and the unknown comprehensible By exploring didactic poets from Hesiod to pseudo Oppian and from Vergil and Lucretius to Grattius and Ovid the authors in this collective volume show how imagery can clarify and illuminate but also complicate and even undermine or obfuscate the overt didactic message The presence of a real or implied addressee invites our engagement and ultimately our scrutiny of language and meaning *Teachers College*
