Celebrating Poetry Across the K-12 Curriculum Napoli, Mary, Day, Deanna, Ward, Barbara A., 2025-07-16 Poetry provides opportunities to explore the universal and common experiences that connect us as human beings When teachers infuse poetry into their classroom it can foster compassion develop interdisciplinary connections and support literacy instruction However not all teachers use poetry in their classroom either because they are not aware of the value of poetry or because they have not had positive experiences with poetry Given the importance of sharing poetry with today's youth educators must feel confident in evaluating well written poetry and how to weave poetry from award winning poets to support interdisciplinary connections Celebrating Poetry Across the K 12 Curriculum aims to ensure that poetry for children is not neglected as part of the curriculum and to help educators feel more confident in their understanding of children's poetry its relevance to children's lives and its importance to supporting pedagogical connections Featuring interviews with well known poets this resource also showcases the latest pedagogical and scholarly research supporting the integration of poetry in the K 12 classroom Covering topics such as science content romanticism and diversity recognition this book is an excellent resource for educators classroom teachers literacy specialists librarians professionals researchers scholar academicians and more

Narrative as Writing and Literacy Pedagogy for Preservice Elementary Teachers Nancy A. Wasser, 2021-08-16 I just cannot write or I am not a good writer are familiar complaints from students in academia Many of them claim they cannot express themselves clearly in written text and their lack of this skill impedes them in their academic career In this book Nancy A Wasser argues that teachers can help solve this when they start viewing writing not as secondary to reading but as the equally important side of the same coin Those who cannot read will not be able to write Wasser explains how teaching and regular practicing of writing skills from an early age onwards helps children grow into students who are self aware of their voices By employing narrative as a process of learning to write and a way to read teachers can teach children the art of writing while also making children more aware of their own constructions of narrative Combining the focus on individual and group expression in writing lessons students can trace and reflect on their own life transformations through their writing process Good writers are not born that way but made through effort and practice Changes in curriculum may not only lead to better expressed citizens but also to more balance between teacher and children
