Insanity Jonah F. Haddad, 2013-11-01 Have you seen such men peculiar raving foam mouthed and straitjacketed throwing themselves mercilessly at white padded walls Such men are said to be insane But there is more to insanity than the images depicted in film and planted in our minds by popular media Insanity is a condition that affects us all Unsoundness of mind disrupts our ability to think clearly and to form knowledge about the world Our understanding is dangerously incomplete and our minds are corrupt We are all insane How then can we ever hope to know our world Is it possible to form justified true beliefs about anything What possibility if any do we have of escaping this condition of madness that keeps us from the light of knowledge In Insanity Jonah Haddad explores these very questions by introducing the main problems of the theory of knowledge and by offering a response to our madness a response grounded in God the ultimate Knower **Environmental Policy** Charles H. Eccleston, Frederic March, 2010-11-15 Environmental policy is often practiced reactively with each crisis addressed as an isolated event Focusing on development of proactive policies Global Environment Policy Concepts Principles and Practice provides the essential scientific and socioeconomic framework for formulating pragmatic and comprehensive environmental policies It discusse The Oxford Handbook of Religious Diversity Chad V. Meister, 2011 This substantial volume of thirty three original chapters covers the full range of issues in religious diversity An indispensable guide for scholars and students its essays make novel contributions and are crafted by recognized experts who represent a wide variety of religious and philosophical perspectives and backgrounds **Morality Truly Christian, Truly African** Paulinus Ikechukwu Odozor C.S.Sp., 2014-11-15 Given the largely Eurocentric nature of moral theology in the history of the Roman Catholic Church what will it take to invest the theological community in the history and moral challenges of the Church in other parts of the world especially Africa What is to be gained for the whole Church when this happens in a deep and lasting way In this timely and important study Paulinus Ikechukwu Odozor brings greater theological clarity to the issue of the relationship between Christianity and African tradition in the area of ethical foundations He also provides a constructive example of what fundamental moral theology done from an African and Christian especially Catholic moral theological point of view could look like Following a brief history of the development of African Christian theology Odozor examines responses of African theologians to African tradition and Christian responses to the reality of non Christian religions In a context where the African religious experience and heritage are powerful sources of meaning and identity Christian evangelization raises questions both about the African primal religions and about Christianity itself and its claims Odozor takes up the subject of moral reasoning in an African Christian theological ethics and concludes with case studies that show how the African Church has tried to inculturate moral discourse on a religiously pluralistic continent and relate the healing gospel message to African situations Students and scholars of moral theology and ethics and church leaders will profit from the issues raised in Morality Truly Christian Truly African **God and Cosmos** David Baggett, Jerry L.

Walls, 2016-02-01 Naturalistic ethics is the reigning paradigm among contemporary ethicists in God and Cosmos David Baggett and Jerry L Walls argue that this approach is seriously flawed This book canvasses a broad array of secular and naturalistic ethical theories in an effort to test their adequacy in accounting for moral duties intrinsic human value moral knowledge prospects for radical moral transformation and the rationality of morality In each case the authors argue although various secular accounts provide real insights and indeed share common ground with theistic ethics the resources of classical theism and orthodox Christianity provide the better explanation of the moral realities under consideration Among such realities is the fundamental insight behind the problem of evil namely that the world is not as it should be Baggett and Walls argue that God and the world taken together exhibit superior explanatory scope and power for morality classically construed without the need to water down the categories of morality the import of human value the prescriptive strength of moral obligations or the deliverances of the logic language and phenomenology of moral experience This book thus provides a cogent moral argument for God's existence one that is abductive teleological and cumulative Multiculturalism and the Convergence of Faith and Practical Wisdom in Modern Society Pascal, Ana-Maria, 2016-12-21 Religion is considered by many to be something of the past but it has a lasting hold in society and influences people across many cultures This integration of spirituality causes numerous impacts across various aspects of modern life Multiculturalism and the Convergence of Faith and Practical Wisdom in Modern Society is a pivotal reference source for the latest scholarly research on the cultural sociological economic and philosophical effects of religion on modern society and human behavior Featuring extensive coverage across a range of relevant perspectives and topics such as social reforms national identity and existential spirituality this publication is ideally designed for theoreticians practitioners researchers policy makers advanced level students and sociologists Ethics and the Autonomy of Philosophy Bernard James Walker, 2014-11-06 In Ethics and the Autonomy of Philosophy Bernard Walker sets out with two objectives First Walker argues that ethics is autonomous as a discipline Oftentimes ethics books from a Christian perspective lean toward grounding ethics in theology or in biblical proof texting Walker departs from this tradition Ethics grounded in theology entails a limited scope for those doing ethics in that the Christian God must be assumed for both Christian and non Christian when at the table of ethical dialogue For the non Christian this loads the dice and shuts down ethical consensus and dialogue if not ethical truth With that said this book does not depart from Christian ethical views on such issues as the sanctity of life antiracism the death penalty the objectivity of ethics and the importance of integrating faith into ethics however Walker does so from a common denominator of philosophy rather than theology Second Walker ventures into the streets and engages the man woman on the streets approach to ethics and ethical decision making He points out the shortcomings of the ubiquitous views of the man woman on the streets viz cultural relativism skepticism and the attitude that ethics is merely a matter of personal choice Encyclopedia of Philosophy Donald M.
