Grade 8 Reading Comprehension Worksheet

Tornadoes

Read the passage. Then answer the questions.

Tornadoes are nature's most violent storms. Spawned from powerful thunderstorms, tornadoes can cause fatalities and devastate a neighborhood in seconds. A tornado appears as a rotating, funnel-shaped cloud that extends from a thunderstorm to the ground with whirling winds that can reach 300 miles per hour.

Damage paths can be in excess of one mile wide and 50 miles long. Every state is at some risk from this hazard. Some tornadoes are clearly visible, while rain or nearby low-hanging clouds obscure others.

Occasionally, tornadoes develop so rapidly that little, if any, advance warning is possible. Before a tornado hits, the wind may die down and the air may become very still. A cloud of debris can mark the location of a tornado even if a funnel is not visible. Tornadoes

generally occur near the trailing edge of a thunderstorm. It is not uncommon to see clear, sunlit skies behind a tornado.

They may strike quickly, with little or no warning. The average tornado moves Southwest to Northeast, but they have been known to move in any direction. The average forward speed of a tornado is 30 mph, but may vary from stationary to 70 mph. Tornadoes can accompany tropical storms and hurricanes as they move onto land.

Waterspouts are tornadoes that form over water. They are most frequently reported east of the Rocky Mountains during spring and summer months. Peak tornado season in the southern states is March through May; in the northern states, it is late spring through early summer. Tornadoes are most likely to occur between 3 pm and 9 pm, but can occur at any time.

In all situations do not get under an overpass or bridge. You are safer in a low, flat location. Never try to outrun a tornado in urban or congested areas in a car or truck. Instead, leave the vehicle immediately for safe shelter. Watch out for flying debris. Flying debris from tornadoes causes most fatalities and injuries.

Answer the Question.

1. Write a short summary that tells what the passage explains. Include only the most important information.

[Handbook on the Science of Literacy in Grades 3-8](#), **Antiracist Reading Revolution [Grades K-8]** Sonja Cherry-Paul, 2024-05-14 When can we move beyond representation to liberation This question from a young Black girl moved New York Times 1 bestselling author Dr Sonja Cherry Paul to offer a vision for antiracist teaching that goes far beyond adding diverse texts in a classroom library Antiracist Reading Revolution provides an actionable antiracist teaching framework and models how K 8 educators can create opportunities for transformative reading and discussions in classrooms Dr Cherry Paul offers six critical lenses that help educators to adopt an antiracist teaching stance spotlighting the importance of instruction built around love joy community justice and solidarity Educators are invited to reflect on their instructional practices dismantle ideologies that are barriers to students critical and creative thinking and cultivate identity inspiring learning experiences where students can show up fully as themselves and recognize the full humanity of all people This is what it means to move beyond representation to liberation Chapters feature several children's books that center BIPOC characters and creators Dr Cherry Paul provides prompts and pathways for each children's book

that guide teachers toward putting into action the six critical lenses at the core of the Antiracist Reading Framework: affirmation, awareness, authorship, atmosphere, activism, and accountability. And she provides toolkits for students and teachers to use when selecting and reading books on their own. Chapters in this book also offer personal and insightful anecdotes supported by research and scholarship that illustrate the power of antiracist teaching in working toward equity, justice, and freedom. Provide a clear and actionable guide for K-8 literacy educators, including classroom teachers, instructional coaches, and librarians. Encourage critical reflection, pausing to ask educators to examine their own identities and values and how these influence their teaching. Guide educators toward selecting and teaching with books that center the lived experiences of BIPOC students. This book is a call to action. In Dr. Cherry Paul's words: "In an antiracist classroom, reading helps us to dream, experience joy, engage in collective struggle, liberate our minds, and love. Let's move forward together to realize our vision of an antiracist reading classroom rooted in love and liberation." Teens Choosing to Read Gay Ivey, Peter Johnston, 2023. In a sea of troubling reporting about education, teaching, reading, and the wellbeing of teens, Ivey and Johnston bring some good news that shows what happens when we stop underestimating young people. This accessible book offers an engaging account of a 4-year study of adolescents who went from reluctant to enthusiastic readers. These youth reported that reading not only helped them manage their stress but also helped them negotiate happier, more meaningful lives. This amazing transformation occurred when their teachers simply allowed them to select their own books, invited them to read with no strings attached, and provided time for them to do so. These students, nearly all of whom reported a previously negative relationship with reading, began to read voraciously, inside and outside of school, performed better on state tests, and transformed their personal, relational, emotional, and moral lives in the process. This illuminating book leads readers on a tour of adolescents' reading lives in their own words, offering a long overdue analysis of students' deep engagement with literature. The text also includes research to inform arguments about what students should and should not read and the consequences of limiting students' access to the books that interest them through censorship. **Book Features:** Links young adults' reading engagement with socio-emotional and intellectual development. Provides nuanced descriptions of teaching practices that facilitate student agency in learning. Features student voices that have been absent in debates about what is appropriate for young people to read and under what circumstances. Connects student perspectives on reading with positive outcomes of reading to research from other disciplines. Illuminates the breadth and depth of the responsibilities of teaching English language arts. **Write About Life Science, Grades 6 - 8**, 2012-10-22.
