*True Stories of Crime in Modern Mexico* Robert Buffington, Pablo Piccato, 2011-04-21 Crime has played a complicated role in the history of human social relations Public narratives about murders insanity kidnappings assassinations and infanticide attempt to make sense of the social economic and cultural realities of ordinary people at different periods in history Such stories also shape the ways historians write about society and offer valuable insight into aspects of life that more conventional accounts have neglected misunderstood or ignored altogether This edited volume focuses on Mexico s social and cultural history through the lens of celebrated cases of social deviance from the late nineteenth and early twentieth centuries Each essay centers on a different crime story and explores the documentary record of each case in order to reconstruct the ways in which they helped shape Mexican society s views of itself and of its criminals

*The Truth in Our Stories* Mónica Tornoe,Elizabeth Wright,Jesus Jesse Esparza,2022-03-29 *The Truth is Right Here in Our Stories* Immigration has long been a controversial issue in American politics and remains one of the country s most pressing issues dividing the nation along political economic moral and ethical lines Critics have long distorted the view of immigrants depicting them as criminals who corrupt our neighborhoods depress our wages overpopulate our prison systems and drain our economy This misshapen narrative persists in our present time *The Truth in Our Stories* presents twelve compelling stories that highlight the immigrant experience and hopefully begin to change that perception The testimonies are unapologetically honest and reveal the horrid conditions and crippling fear that continue to characterize the lives of immigrants We learn for example that immigrants cannot obtain a driver s license in most states and that they have unequal access to health care they receive no benefits and work multiple jobs for unscrupulous employers who frequently exploit them Yet there is hope because these stories challenge the public narrative about immigrants and dismantle the myths that

lead to their persecution While the stories shared in this book are full of hardship the immigrants who share them shine with resilience and fortitude They reveal for instance that immigrants are entrepreneurial create jobs pay taxes and build infrastructure thereby improving the economy As the fight for immigrant rights continues to unfold we hope this book will help restore a sense of shared humanity with the immigrant community Listen to these voices the truth is right here in our stories

*The Satanism Scare* Joel Best,2017-09-29 Although there is growing concern over Satanism as a threat to American life the topic has received surprisingly little serious attention Recognizing this the editors of this volume have selected papers from a wide variety of disciplines broadly covering contemporary aspects of Satanism from the vantage points of studies in folklore cults religion deviance rock music rumor and the mass media All contributors are skeptical of claims that a large powerful satanic conspiracy can be substantiated Their research focuses instead on claims about Satanism and on the question of whose interests are served by such claims Several papers consider the impact of anti Satanism campaigns on public opinion law enforcement and civil litigation child protection services and other sectors of American society The constructionist perspective adopted by the editors does not deny the existence of some activities by real Satanists and two papers describe the workings of satanic groups Whatever the basis of the claims examined and analyzed there is growing evidence that belief in the satanic menace will have real social consequences in the years ahead

*The New Narrative of Mexico* Kathy Taylor, 1994 In this book Kathy Taylor examines four novels by contemporary Mexican writers in the context of a theoretical

discussion of the writing of both historical and fictional narrative Latin American narrative was inaugurated with the imaginative creation of the New World as seen through European eyes stories born of the inseparable embrace of history and fiction Contemporary Mexican writers have reclaimed this tradition while experimenting with new narrative forms and the problematics of writing itself As one Mexican writer put it Novels have become problems Not only do their novels function as testimonials to socio historical realities but the problems of writing and criticism of the genre are incorporated as central themes of the works themselves In Mexico where the burdens of the past seem to dominate the present to the point of obsession the writing of a story becomes for many writers a question of how to write history While the writing and rewriting of history is a recurrent theme of these narratives which cannot easily be defined as novels the texts themselves contain the hi stories of their own creation The reader of these texts is placed in a role reminiscent of that of the historian whose task it is to reconstruct a story from fragments of other texts Thus both writer and reader become involved in the creation and recreation of art with its new visions and different versions of an historical reality The works chosen for study here represent very different approaches to this common trend in contemporary Mexican writing The documentary socio literature of Elena Poniatowska s *La noche de Tlatelolco* 1971 contrasts with the fictionalized testimonies in Elena Garro s *Testimonios sobre Mariana* 1980 Jose Emilio Pacheco s *Moriras lejos* 1967 involves complex forms of fiction and allegory while Federico Campbell s *Pretextos* 1979 is a textual maze of authorial masks and layers of fiction While analyzing these novels and the stories they tell this book raises questions such as What is history What is the relationship between the histories we write and the stories we invent How does the historian writer become part of the story Thus the common theme of the writing of narrative narrative as history and narrative as fiction is threaded throughout these diverse works While reflecting the reality of the postmodern world in which it is produced this writing reveals with its internal mirrors the premises and structures with which we interpret and invent our surrounding reality It also points to the past as something that cannot be changed but must continually be rediscovered if we are to understand who we are and might become Invention and discovery remembering and rewriting that s how the story begins
