**Practical Theology and Reflective Practice** Mark Pryce, 2019-03-13 This groundbreaking study offers an innovative critical analysis of poetry as a resource for reflective practice in the context of continuing professional development. In the contemporary drive in all professions for greater rigour in education, training, and development, little attention is paid to the inner shape of learning and meaning-making for individuals and groups, especially ways in which individuals are formed for the task of their work. Building on empirical research into the author's professional practice, the book takes the use of poetry in clergy continuing ministerial development as a case study to examine the value of poetry in professional learning. Setting out the advantages and limitations of poetry as a stimulant for imaginative critical reflexivity and formation within professional reflective practice, the study develops a practical model for group reflection around poetry, distilling pedagogical approaches for working effectively with poetry in continuing professional development. Drawing together a number of strands of thinking about poetry, Practical Theology and reflective practice into a tightly argued study, the book is an important methodological resource. It makes available a range of primary and secondary sources offering researchers into professional
