General Description

Your STA-820 represents one of the best values available today in a high-quality receiver. Its power, versatility and clean, modern styling make it a truly outstanding buy.

- 40 watts of clean "honest" power will drive almost any speaker system — even two sets of speakers!
- The FM front-end section utilizes Field Effect Transistor Circuitry. This means that your tuner has extra-high sensitivity combined with exceptionally low noise, plus unusual immunity to distortion caused by electrical interference at these high frequencies and minute signal levels. Maybe that's a little too "technical" for you — but it's all solid up-to-the-minute engineering technology.
- The FM/AM IF section is built around a Linear IC which assures minimum noise and low distortion, combined with high sensitivity.
- The FM multiplex section uses a newly developed Phase Lock Loop IC (P.L.L. IC) which assures stable stereo separation even if internal temperatures rise or drop.
- Skating eliminates interstation hiss on FM.
- Phono-preamplifier and Tone-preamplifier use newly developed operational amplifier ICs (OP-AMP IC) which assure high-gain, low distortion and wide dynamic range.
- High-power Main Amplifier are a true complementary OCL (Output Capacitorless) circuit configuration which provides high-power with maximum reliability.
- Twin overload protection circuits automatically protect the amplifier from thermal and speaker problems (shorting or otherwise).
- Special noise-cancelling circuitry eliminates switching noise.
- Complete with factory-mounted wood-grained vinyl veneer covered wood case, and you don't pay a penny extra.

NOTE: Before connecting the STA-820, please read the following instructions. They will insure your getting the most enjoyment from your new Receiver.

HEADZ-zINe: Vol. 1, 'REGIONS-UK', Issue 2 Dr Adam de Paor-Evans, 2021-01-07 HEADZ zINe is a periodical output of the HEADZ Project Taking the approach of a fanzine with a critical edge it challenges the convention of academic knowledge production and dissemination HEADZ zINe seeks to capture the personal local and communal histories of hip hop HEADZ zINe is foremost interested in the stories of its co authors and through a series of in depth discussions and complimentary analysis of the artefacts and archives of hip hop HEADZ zINe reveals a set of previously untold stories When we talk about hip hop culture and hip hop history we rarely talk about 50 year olds from the far flung corners of the UK predominantly corners constructed of white majority space where hip hop culture would never have been thought to have existed in the 1980s However as hip hop culture exploded across the globe it infiltrated the remotest inhabited parts of the world This second issue in Volume 1 of HEADz zINe focuses on pioneering hip hop practitioners and adopters from Devon and Cornwall Much like the personal histories shared in issue 1 by those that grew up in the North West of England there are stories here of limited access to hip hop and a shared sense of desire for fully absorbing the culture or as much as could be absorbed considering communication and societal practices of the era and the region s cultural context The hunger for knowing about hip hop and knowing hip hop became paramount in the lives of some young Westcountry people and in this issue the personal histories of twelve hip hop practitioners and adopters growing up in the provincial cities of Exeter and Plymouth the local towns of Bradninch Camborne and Sidmouth and the villages of Newton Poppleford and Buckland Monachorum are presented This issue focuses on the formative and arguably most important decade for the evolution of provincial hip hop in Devon and Cornwall 1983 1992 However not all co authors discuss this period but rather have focused on specific periods of time within this developmental decade Almost 40 years on from its arrival in Britain this issue presents twelve conversations with its co authors to demonstrate hip hop s girth reach and power Furthermore the narratives here also attest to hip hop s influence on how it has shaped the lives of this issue s co authors by equipping them with a creative and technological skillset how to approach everyday life or understanding their own personal histories and cultural identities

America, the Owner's Manual Bob Graham,Chris Hand,2016-07-15 In 2016 Americans fed up with the political process vented that frustration with their votes Republicans nominated for president a wealthy businessman and former reality show host best known on the campaign trail for his sharp rhetoric against immigration and foreign trade Democrats nearly selected a self described socialist who ran on a

populist platform against the influence of big money in politics While it is not surprising that Americans would channel their frustrations into votes for contenders who pledge to end business as usual the truth is that we don't have to pin our hopes for greater participation on any one candidate All of us have a say if we learn master and practice the skills of effective citizenship One of the biggest roadblocks to participation in democracy is the perception that privileged citizens and special interests command the levers of power and that everyday Americans can't fight City Hall That perception is undoubtedly why a 2015 Pew Charitable Trusts survey found that 74 percent of those Americans surveyed believed that most elected officials didn't care what people like them thought Graham and Hand intend to change that conventional wisdom by showing citizens how to flex their citizenship muscles They describe effective citizenship skills and provide tips from civic experts Even more importantly they offer numerous examples of everyday Americans who have used their skills to make democracy respond The reader will see themselves in these examples of citizens who chose to be victorious participants rather than tranquil spectators in the arena of democracy By the end of the book you will have new confidence that citizen participation is the lifeblood of America and will be ready to make governments work for you not the other way around
