*The Complete Cooking for Two Cookbook, Gift Edition* America's Test Kitchen, 2017-11-28 A New York Times Bestseller, more than 400,000 copies sold. The perfect for two cookbook for newlyweds, college graduates, and empty nesters. Learn the ins and outs of successful small-scale cooking from the experts at America's Test Kitchen. This groundbreaking resource was the first to re-engineer recipes to serve just two. We put our expertise to work to scale down 650 of our best recipes, including the trickiest dishes from soups and stews to stir-fries and meatloaf, even cakes and pies. We did the math to take the guesswork out of cooking for two, so you can be sure that anything you want to make, whether it's lasagna or a batch of fudgy brownies or a fluffily yellow cake, will come out perfectly every time. The extensive introduction includes clever shopping strategies to reduce waste, smart storage tricks that help extend the freshness of key ingredients, and our picks for the most useful kitchen equipment for any two-person household.

*Stovetop Low Carb Recipes* Lisa Shea, Revised for 2015 While microwaves can seem convenient, they also tend to encourage us to zap unhealthy food and chow it down while watching TV or playing on our laptop. These 34 stovetop recipes will help you slow down, eat less, and create delicious healthy food. So much of our world is rush, rush, rush in our modern era. We want quick updates on our smartphones. We crave instant news via Twitter. But often it's important to slow down. The more we pay attention to how we live and how we eat, the healthier we become. Cooking food on a stove reconnects us with what we are doing. It lets us smell the simmering sauce. It lets us stir the dinner into rich life. The process encourages us to pay attention to what we eat, to savor it, and to maintain reasonable portions. All of these things draw us into a healthier lifestyle. Make stovetop meals a regular part of your menu. Invest the time in your health. Your body will thank you with years of healthy, enjoyable life. In addition to the recipes, all of my low-carb books provide appendices which explain how to successfully manage a low-carb diet. Let me know if you have any questions or suggestions. I frequently update all my low-carb books based on your recommendations.

**100 Recipes** America's Test Kitchen, 2015-10-13 A provocative, handpicked collection of relevant and surprising essential recipes for today's cook. We have countless recipes at our disposal today, but what are the real keepers, the ones that don't just feed us when we're hungry or impress our friends on Saturday night, but inspire us to get into the kitchen? At the forefront of American cooking for more than 20 years, the editors

at America's Test Kitchen have answered this question in an essential collection of recipes that you won't find anywhere else. 100 Recipes Everyone Should Know How to Make Organized into three recipe sections: Absolute Essentials, Surprising Essentials, and Global Essentials, each recipe is preceded by a thought-provoking essay that positions the dish. For example, "Treating Pasta Like Rice Simplifies Everything," "A Covered Pot Is a Surprisingly Good Place to Roast a Chicken," and "Reimagine Pie in a Skillet to Simplify the Process." You'll find useful workday recipes like a killer tomato sauce that's almost as easy as opening a jar of the store-bought stuff, genius techniques for producing amazing flavor (try poaching chicken breasts over a garlic and soy-spiked brine), trust us, it's that good, and familiar favorites reinvigorated (the best beef stew comes from Spain and it's even easier to make than the stateside stew you've been eating for years). Gorgeous photography shot right in the test kitchen accompanies every recipe, revealing the finished dish as well as highlights of its preparation. Likely to stir debate among anyone interested in food and cooking, 100 Recipes Everyone Should Know How to Make provides a snapshot of how we cook today and will galvanize even the most jaded cook to get into the kitchen.
