Cardiac Pacemaking in Health and Disease: From Genes to Function Pietro Mesirca, Alicia D'Souza, Futoshi Toyoda, Gerard J. J. Boink, 2022-04-28 Transparency in Insurance Regulation and Supervisory Law Pierpaolo Marano, Kyriaki Noussia, 2021-03-30 This volume focuses on transparency as the guiding principle for insurance regulation and supervisory law All chapters were written by experts in their respective fields who address transparency in a wide range of European and non European jurisdictions Each chapter reviews the transparency principles applicable in the jurisdiction discussed While the European jurisdictions reflect different facets of the principle as emerging from EU law on insurance the principle has developed quite differently in other jurisdictions **Administrative Rulemaking and Planning in European Laws** Giacinto della Cananea, Angela Ferrari Zumbini, 2025-03-15 Administrative rulemaking and planning is an under studied and under theorized area of public law To better understand how administrative functions and powers are discharged by public authorities and private bodies this seventh volume in the Common Core of European Administrative Law series argues that we must consider all forms of administrative action not just formal procedures and judicial review As such greater attention needs to be paid to administrative rulemaking and planning which have a significant impact on economics and society Through extensive comparative research this book examines this increasingly important field of administrative law It focuses mainly on Europe analysing ten national systems including eight European Union member states Norway and the UK but it also explores the legal systems of the United States and China as well as that of a non state entity the European Union itself The questions investigated across these systems include whether administrative agencies may fetter their discretion through policy and rules whether their rules must be published and what remedies are available when plans adversely impact individual rights These questions are examined through a factual analysis based on a set of ten hypothetical cases which are discussed by national experts This comparative approach identifies commonalities and differences between legal systems such as in consultation and transparency in the rights of public service users and in legal remedies to address rules and plans As in other volumes in the series both similarity and difference are essential to understanding how a common core is shaped and evolves Experiencing Imprisonment Carla Reeves, 2016-01-08 The growing body of work on imprisonment desistance and rehabilitation has mainly focused on policies and treatment programmes and how they are delivered Experiencing Imprisonment reflects recent developments in research that focus on the active role of the offender in the process of justice Bringing together experts from around the world and presenting a range of comparative critical research relating to key themes of the pains of imprisonment stigma power and vulnerability this book explores the various ways in which offenders relate to the justice systems and how these relationships impact the nature and effectiveness of their efforts to reduce offending Experiencing Imprisonment showcases cutting edge international and comparative critical research on how imprisonment is experienced by those people living and working

within imprisonment institutions in North America and Northern Central and Eastern Europe as well as Scandinavia The research explores the subjective experience of imprisonment from the perspective of a variety of staff and prisoner groups including juveniles adult female and male prisoners older prisoners sex offenders wrongfully convicted offenders and newly released prisoners Offering a unique view of what it is like to be a prisoner or a prison officer the chapters in this book argue for a prioritisation of understanding the subjective experiences of imprisonment as essential to developing effective and humane systems of punishment This is essential reading for academics and students involved in the study of criminology penology and the sociology of imprisonment It will also be of interest to Criminal Justice practitioners and policymakers around the globe

Imposing Sanctions on Violent Non-State Actors to Restore International Peace and Security

Christopher Huber, 2022-06-06 In the last decades violent non state actors VNSAs such as rebel and terrorist organizations have proved their capacity to break international law The international community particularly the United Nations UN has reacted to this development by redirecting its conflict resolution efforts to these non state entities This has turned targeted sanctions into one of the most vital and indispensable foreign policy tools available to the UN Security Council in combating

terrorism and contributing to the peaceful resolution of intra state conflicts Despite the UN Security Council s growing tendency to sanction VNSAs there has been little research analyzing the effects of UN targeted sanctions on these non government actors This book seeks to fill this gap and shifts the focus on non state actors by ascertaining the general mechanisms through and conditions under which UN targeted sanctions imposed on VNSAs tend to be effective The tripartite empirical analysis combining quantitative and qualitative research methods demonstrates that the state centric understanding of how sanctions work is not simply applicable to the effective sanctioning of violent non state actors such as rebel and terrorist movements
