is called a melting pot of all cultures As the immigration of different cultures continue to flood this land of opportunity a

revolution is taking place in the fusion of their cultures and cuisines This transformation has been very prominent in the last

50 years and it is clearly visible in the emerging American cuisine Practically this cuisine has fused to become a spectacular

global cuisine In my book I am not only giving the recipes that we love so dearly but also tried to emphasize the history and

origin of these recipes and describe the use of healthful ingredients and spices to prolong your life We have to watch what we

eat I am trying to bring this point to the attention of the reader that according to ancient Indian treatises and modern

scientific research it is established that the use of spices is not only for taste but it is for their hidden meaning They have anti

carcinogenic properties and their use is very important to maintain a good healthy lifestyle Americans are heavily ridden with

obesity heart diseases diabetes breast cancer and many other diseases Being an American East Indian pioneer with my east

Indian wisdom of Ayurveda my idea is to make these exotic recipes as healthy as possible by using these spices I have also

tried to capture and write the history and origin of these recipes My basic point of view is that to make the food delicious use

fresh ingredients herbs and spices and do not try to over load them with various cheeses creams sugars and lards to make

them delicious You are what you eat Most of these foreign recipes have historical dimensions and origin They have now

shaped themselves gradually to suit the American palate and have become an integral part of American cuisine We can make

them equally delicious by wisely using healthful ingredients In order to make these books interesting and enjoyable they are

written with easy step by step instructions I am hopeful that these books Americas Favorite Recipes Part I Part II and Part III
