Delle has not yet completed his lifetime study of natural humanity and manipulated governed humanity He and his childhood  
giraffe friend Niqynu travel back through time to when Delle was one year old to the present and to the future Delle depicts  
how our great inventors writers and a host of gifted legends became successful Despite a system of scarce schooling and  
academics they still prevailed Delle compares this with current academic standards and how academics can affect a child s  
creativity He asks what good are competition and the disease of believing you have to be number one The twelve hours a day  
of study and homework a child has does it teach each and every child to be better than one another Instead it would be better  
to have schools that teach parenting and help people respect and be polite to one another Delle and Niqynu study the history  
of religion and how it has affected and continues to affect modern civilization Of course God is energy shared by everyone  
Delle and Niqynu studied the laws of the Bible modern school bureaucracy and the government system its laws rules  
regulations fines penalties and restrictions This arduous squeezing system comes down on parents and poor people to force  
their children to fit the modern moral mold Delle and Niqynu question the behavior of adolescents and adults The rule of  
sexual societal behavior needs to be set free Delle and Niqynu never stop asking questions because it is their destiny to help  
prevent child abuse Just look at all of the mental and physically abused children His questions are still unanswered Come and  
join them on their quest
