titled Orion's Highway Across the Galaxy is about an alien from a distant planet assigned to help mankind by making specific individuals in the past become famous. His name is Enoch and he is a distant cousin of the human race. Gifted with certain skills, he is able to help Nostradamus, Mozart, and Dr. Christiaan Barnard gain the recognition that they richly deserved. The following is a quote from Enoch as he summarizes his life: Nostradamus, Mozart, and Dr. Barnard, all these men with different personalities, were the ones that I helped in the corresponding years 1513, 1756, and 1962. Mozart lived for only thirty-five years because of the drugs he received as a baby, causing his brain to deform. For every bad thing, there is a good thing; his contribution was the brilliance of his music that he left for society. When I recall the three Earthlings that I guided toward recognition, I concede that their beginnings were apt to be shadowy. So it is with great men trying to find their beginnings with their inner skills that are undeveloped. Most critics then and now still debate the success of their accomplishments with doubt and jealousy, and yet wishing that they could achieve fame themselves. The plain and inescapable truth is that these men struggled with a desire that motivated them, and in the absence of eyewitnesses, no one was there to see me rally them on. I gave them inspiration and the ability to meet their goals. Enoch II: With a life span of twelve hundred years, Enoch is capable of accomplishing many goals set forth by his superiors. The only goal that he cannot successfully complete is to make a decision to marry Beena, the red-haired beauty whom he loves, or to marry Brianna, the beautiful blond that had his child out of wedlock. During Enoch's multiple visits to planet Earth, he discovers the mysteries of the universe. The following is one of Enoch's discoveries: Traveling at Warp 5, we crossed the barrier that separates the two spiral sectors in our galaxy, called the Milky Way. Beyond the stream of neutrinos on the other side of the barrier, I could see the multicolored beacons that our radar illuminated on the monitor screen. The green rings and yellow dots in a circular pattern outlined the entrance to Orion's Highway, a pathway that led to planet Earth. My assignment was to help an individual on Earth to become historically famous, an individual whose artistic music skills would calm the soul and quench the fires of war within the hearts of men. The individual was my distant cousin, and I was about to become my Brother's Keeper. Enoch II: The story line unravels universal mysteries about the feasibility of space flight at warp speeds, a decoding of the Bible that shows when the Great Flood occurred, and the purpose for...

Geothermal Fluids Keith Nicholson, 2012-12-06. This book introduces aqueous geochemistry applied to geothermal systems. It is specifically designed for readers first entering into the world of

geothermal energy from a variety of scientific and engineering backgrounds and consequently is not intended to be the last word on geothermal chemistry. Instead, it is intended to provide readers with sufficient background knowledge to permit them to subsequently understand more complex texts and scientific papers on geothermal energy. The book is structured into two parts. The first explains how geothermal fluids and their associated chemistry evolve and shows how the chemistry of these fluids can be used to deduce information about the resource. The second part concentrates on survey techniques explaining how these should be performed and the procedures which need to be adopted to ensure reliable sampling and analytical data are obtained. A geothermal system requires a heat source and a fluid which transfers the heat towards the surface. The fluid could be molten rock, magma, or water. This book concentrates on the chemistry of the water or hydrothermal systems. Consequently, magma energy systems are not considered. Hot dry rock (HDR) systems are similarly outside the scope of this text principally because they contain no indigenous fluid for study. Both magma energy and HDR systems have potential as energy sources but await technological developments before they can be exploited commercially. Geothermal systems based on water, however, are proven energy resources which have been successfully developed throughout the world. Groot, 2018-08-07 You're the one Nathaniel had said: "You go and tell her. No stones. Rivkah knows her own sin all too well. She knows the prophets' judgments against women like her and still believes that prostitution doesn't even compare to the most secret and shameful incident of her past. Not even her best friend knows what she did. Only God knows." Determined to make her way to Caesarea Maritima to confront the mother of her beloved Nathaniel, Jorah has no time to consider the rumors she hears of her brother Jesus' resurrection. She'll stop at nothing to get the answers she needs. A former Zealot, Joab is wrestling with delivering a message to a woman named Rivkah, a message that challenges everything he ever believed. A message from her son. No stones.      **Once Upon An Alpha Z** Time, 2021-10-21 I was walking through an unknown foggy forest when I spotted a field of wildflowers. My feet had a mind of their own as they led me to wander through the flowers. I nonchalantly dragged my hands over the flowers. It was a beautiful and serene sight. I deeply inhaled the sweet scent of the flower and gave a little shudder of bliss. I closed my eyes and just absorbed the moment, wanting to remember it. Suddenly, the sounds of paws hitting the forest floor overwhelmed me. Then the forest was ignited with flames. Everything glowed vibrant oranges and reds as heavy smoke smothered me from above. I threw myself to the ground, desperate for any trace of clean air. As I attempted to crawl out of the flowers, a new sound harmonized with the thunder: paws, screams, and howls for help terrorized me. I clawed at the ground, desperate to escape the menacing choir. Fire licked my skin, and I screamed for help. Sobs escaped my lips as flaming branches fell on me from above. The smell of burning flesh was the only thing that consumed me as everything went dark.
