The SADF and Cuito Cuanavale Leopold Scholtz, 2020-02-15 A shooting war is often followed by a second war This war is not fought with bullets or artillery shells not with tanks or bombers but rather with words The war is in effect fought again on paper In 1987 1988 the dusty Angolan town of Cuito Cuanavale was the backdrop for the final battles of the Border War Ever since the war ended the fighting around Cuito has been the subject of a fierce public debate over who actually won the war While the leadership of the former South African Defence Force SADF claims it was never defeated the supporters of the Angolan MPLA government Cuba and SWAPO insist that the SADF was vanquished on the battlefield They contend that the SADF wanted to overrun Cuito Cuanavale and use it as a springboard for an advance on Luanda But was Cuito Cuanavale ever really an objective of the SADF Leopold Scholtz tackles this question by examining recently declassified documents in the SANDF archives exploring the strategic and tactical decisions that shaped the six main battles from the SADF s stunning tactical success on the Lomba River to the grinding struggle for the Tumpo Triangle His incisive analysis untangles what happens when war politics and propaganda become entwined

South Africa's Dreams Robert J. Gordon, 2021-02-05 In the early sixties South Africa s colonial policies in Namibia served as a testing ground for many key features of its repressive Grand Apartheid infrastructure including strategies for countering anti apartheid resistance Exposing the role that anthropologists played this book analyses how the knowledge used to justify and implement apartheid was created Understanding these practices and the ways in which South Africa s experiences in Namibia influenced later policy at home is also critically evaluated as is the matter of adjudicating the many South African anthropologists who supported the regime

dispensation and discusses the lasting legacy or afterlife of the war in great detail It also offers an appraisal of the secondary literature of the Border War supplemented by archival research interviews and an analysis of articles newspaper reports reviews and blogs Adopting a genuinely multidisciplinary approach that borrows from the study of history literature visual culture memory politics and international relations South Africa s Border War is an important volume for anyone interested in the study of war and memory or the modern history of South Africa

Ruling Nature, Controlling People Luregn Lenggenhager,2018 Recent nature conservation initiatives in Southern Africa such as communal conservancies and peace parks are often embedded in narratives of economic development and ecological research They are also increasingly marked by militarisation and violence In Ruling Nature Controlling People Luregn Lenggenhager shows that these features were also characteristic of South African rule over the Caprivi Strip region in North Eastern Namibia especially in the fields of forestry fisheries and ultimately wildlife conservation In the process the increasingly internationalised war in the region from the late 1960s until Namibia s independence in 1990 became intricately interlinked with contemporary nature conservation ecology and economic development projects By retracing such interdependencies Lenggenhager provides a novel perspective from which to examine the history of a region which has until now barely entered the focus of historical research He thereby highlights the enduring relevance of the supposedly peripheral Caprivi and its military scientific and environmental histories for efforts to develop a deeper understanding of the ways in which apartheid South Africa exerted state power

African Interventions Emizet F. Kisangani,Jeffrey Pickering,2021-11-11 A rich and accessible examination of military intervention on the African continent from both foreign and African military actors

Inside South Africa's Foreign Policy John Siko,2014-06-16 South Africa is still the major player in African diplomacy its military resources far outstripping those of other nations on the continent It also has traditionally taken the lead role in Africa s united negotiations with other power blocs Yet the recent consensus has been that South Africa s diplomacy over the last decades has been a disappointing failure from appearing to back the controversial Mugabe regime to accusations that it is failing to utilize its position to encourage Chinese investment John Siko has had insider access to the corridors of power in South Africa and with access to the major political players charts the inability of South Africa to develop a coherent policy over the last four decades In particular he reveals the tight grip Mbeki has over foreign policy to the detriment of SA s standing in the world and argues South Africa s isolationist style of policy making has not changed enough after Mandela s election in 1994

waged in South African waters during the Second World War The book investigates this broad topic by focussing on several interrelated aspects such as the wartime strategic importance of South African waters the rival Axis and Allied naval strategies in the southern oceans the development of the South African coastal defence system the full extent of the Axis naval operations in the southern oceans the naval intelligence war and finally the antisubmarine war waged in South African waters Based on extensive archival research in South Africa and the United Kingdom and supplemented by a wealth of secondary material the book introduces a fresh in depth discussion on a largely forgotten episode of South African military history

Nuclear Proliferation and the Psychology of Political Leadership Kelly O'Reilly, 2014-09-15 This book offers a novel approach to understanding the puzzle of nuclear proliferation by examining how leaders' beliefs and perceptions about the international system influence states' decisions to acquire nuclear weapons Today there is a persisting dilemma over the spread of nuclear weapons for both practitioners and scholars of international affairs Uncertainty remains whether determined proliferators can be stopped as shown by the cases of North Korea and Iran These instances of proliferation raise questions about regional stability the use of pre-emptive military action and the potential for reactive proliferation by neighbouring countries Despite the serious implications surrounding the spread of these weapons proliferation scholarship has thus far failed to solve what has been described as the proliferation puzzle why do some countries choose nuclear weapons while others do not The author argues that understanding basic psychological motivations such as the role of power and perceptions of self and others forms a strategic context which provides answers about a leader's willingness to proliferate Proliferation willingness is a critical yet frequently overlooked part of the proliferation equation Ultimately it is the combination of willingness and proliferation opportunity i.e. technical and scientific capabilities that determines whether

a country goes nuclear By examining several historical instances of proliferation decision making in South Africa India Libya and Australia the book s findings highlight the fundamental role of leaders beliefs in shaping proliferation outcomes This book will be of much interest to students of nuclear proliferation political psychology security studies and IR in general

Inlands Robert S. G. Fletcher,Alec Zuercher Reichardt,2024-12-31 Conventional narratives of empires and globalization focus on oceans and coasts supposing that global connections are seaborne and that historical change proceeds inward from port cities into continental expanses This book offers a new perspective examining key inland areas around the world to show how interior regions have shaped global history Inlands brings together an interdisciplinary group of experts to explore the modern histories of inland regions across North and South America Africa Eurasia and Australasia from the American heartland to the Yangzi valley the Great Dismal Swamp to the Arabian Desert Together they argue that interior regions provide a fresh vantage point from which to rethink the history of global connection and disconnection Each chapter reconsiders national regional or imperial histories from an inland perspective demonstrating how such places have spurred global change Contributors reveal the critical role inlands and their Indigenous inhabitants have played in the development projection and contestation of state power showing how some interiors became essential to empire even as others developed in resistance to it By examining the struggle to integrate inland regions into wider networks of exchange this book also sheds light on the unevenness and the limits of contemporary globalization A new global history of interior spaces Inlands presents

Ending Apartheid Jack Spence, David Welsh, 2014-06-06 The release of Nelson Mandela from twenty seven years imprisonment in 1990 and the free elections which followed four years later were among the most dramatic events of the twentieth century David Welsh and J E Spence here examine the complex forces which lay behind that drama They chart the rise and decline of apartheid ideology in South Africa the internal insurrection and increased international isolation which characterised the 1980s and the political roller coaster ride of the period after 1990 as constitutional negotiations got underway Based on extensive interviews with those involved Ending Apartheid traces the negotiating process in penetrating detail noting the political skills of de Klerk and Mandela in keeping their potentially unruly constituencies in line and avoiding the major violence that many had predicted Reaching agreement on a democratic constitution was a major achievement that surprised many sceptical observers but the book ends on a more sombre note Reviewing the period subsequent to the transition it argues that while progress has been made the future of South Africa's democracy is still far from assured Written by two eminent scholars with decades of experience teaching in the field Ending Apartheid is an invaluable resource for all students of South African politics seeking a deeper understanding of a defining episode in recent history

developing countries that cannot acquire nuclear weapons The study shows that vague unverifiable and inflated threat assessments from US government sources have played an important role in sustaining this myth A unique dataset of CBW development programs in the period 1946-2010 demonstrates that significantly fewer countries have had CBW programs than often thought and that especially Third World countries have been incorrectly accused of pursuing or possessing CBWs
