Select a social problem that you want to explore on a deeper level. It can be a social problem that is affecting your community and/or it could be a social problem that is affecting society on a much larger scale. **Please make sure to use 3 outside scholarly sources besides the book (if you are going to use the book)!**

Please answer these questions within the paper:

- 1) Why did you select this particular social problem?
- 2) Using the three main sociological perspectives to explain how each would view this social problem AND what solutions would they propose to combat this social problem?
- 3) Would you use micro and/or macro analysis to investigate this social problem? Why would choose one over the other or why would you choose both?
- 4) How prevalent was this social problem 20 years ago?
- 5) Imagine you are a sociologist who has just been given a grant to investigate this social problem. How would you go about conducting a research study for this particular issue? What research methods would you utilize and why?
- 6) What solutions would you propose be implemented in order to resolve this social problem?

This paper should be a minimum of 5 FULL pages in length, typed and double spaced. Please cite any information you gather during the research process! You can use either MLA or APA for your research format. Please include a cover and reference page.
