**Software** Matthew Symonds, 2003 A history of the computer company Oracle chronicles its rise to become one of the industry's most powerful and profitable companies noting its penchant for reinventing itself in pursuit of new goals

Software Matthew Symonds, 2006-05-01 Larry Ellison stands out as one of the most outspoken driven daring leaders of the software industry The company he co-founded runs Oracle is the number one business software company But Oracle is as controversial as it is influential as feared as it is revered thanks in large part to Ellison who is not afraid to suddenly change course reinvent Oracle in the pursuit of new ever more ambitious goals As well as relating the story of Oracle's often bumpy path to industry dominance Symonds deals with the private side of Ellison's life This is the most complete portrait undertaken of the man his empire In perhaps the book's most unusual feature Ellison responds to Symonds's portrayal in the form of a running footnoted commentary Photos **Software** Larry Ellison, Matthew Symonds, 2003-10-01 Software Matthew Symonds, 2013-04-30 In a

business where great risks huge fortunes and even bigger egos are common Larry Ellison stands out as one of the most outspoken driven and daring leaders of the software industry The company he co-founded and runs Oracle is the number one business software company perhaps even more than Microsoft's Oracle's products are essential to today's networked world But Oracle is as controversial as it is influential as feared as it is revered thanks in large part to Larry Ellison Though Oracle is one of the world's most valuable and profitable companies Ellison is not afraid to suddenly change course and reinvent Oracle in the pursuit of new and ever more ambitious goals **Software** examines the results of these shifts in strategy and the forces that drive Ellison relentlessly on In **Software** journalist Matthew Symonds gives readers an exclusive and intimate insight into both Oracle and the man who made it and runs it As well as relating the story of Oracle's often bumpy path to industry dominance Symonds deals with the private side of Ellison's life From Ellison's troubled upbringing by adoptive parents and his lifelong search for emotional security to the challenges and opportunities that have come with unimaginable wealth **Software** gets inside the skin of a fascinating and complicated human being With unlimited insider access granted by Ellison himself Symonds captures the intensity and some would say the recklessness that have made Ellison a legend The result of more than a hundred hours of interviews and many months spent with Ellison **Software** is the most complete portrait undertaken of the man and his empire a unique and gripping account of both the way the computing industry really works and an extraordinary life Despite his closeness to Ellison Matthew Symonds is a candid and at times highly critical observer And in perhaps the book's most unusual feature Ellison responds to Symonds's portrayal in the form of a running footnoted commentary The result is one of the most fascinating business stories of all time *Ethics in a Cocoon* V.
