Recruitment For Sandf 2015 For Matriculants:

Students with Disabilities and the Transition to Work Oliver Mutanga, 2019-07-01 This book sets out to understand how students with disabilities experience higher education and the transition to the workplace. It foregrounds the voices of students and graduates in order to explore identity, inclusion, participation and success of youth with disabilities in higher education as well as their transition from university to employment. The author proposes a new understanding of disability considered in terms of a continuum of abilities, balancing empirical data, theory and policy analysis with specific regard to the interests of youth with disabilities, making a unique contribution to discussions on access, inclusion and success in higher education and employment. These discussions inform social development and educational policy planning and implementation not only in South Africa but also in countries with a similar context, particularly in terms of remedial courses of action that bring social justice to people with disabilities. *Students with Disabilities and the Transition to Work* will be of interest to all scholars and students working in the fields of disability studies, particularly those with a focus on critical disability studies and disability in the global south as well as those working in higher education, sociology, development studies and social policy.

Contemporary Issues in South African Military Psychology Nicole Dodd, Petrus C. Bester, Justin van der Merwe, 2020-05-13 *Contemporary Issues in South African Military Psychology* is a well-timed, extremely thought-provoking imperative particular to the African context and deals with a highly contemporary issue within the people management and the management studies fields, specifically in the military field and context. This is specifically of importance as military psychology is a behavioural science that combines theory and practical application. Prof Karel Stanz, University of Pretoria.

COVID-19 and a World of Ad Hoc Geographies Stanley D. Brunn, Donna Gilbreath, 2022-09-15 This book provides an interdisciplinary overview of the causes and impacts of COVID-19 on populations, economies, politics, institutions and environments from all world regions. The book maps the causes, effects and impacts of the virus and describes the impact of the virus on, among others, health care, teaching and learning, travel, tourism, daily life, local and regional economies, media, impacts, elections and indigenous populations and much more. Contributions to this book come from the humanities, social and policy science disciplines as well as from emerging transdisciplinary fields including climate change, sustainability, health care and epidemiology, security, art, visualization, economic and social well-being, law and borderland studies. As such, this book will be a rich source of information to all those geographers, social scientists and urban and regional planners working in this field.

Dominance and Decline Susan Booysen, 2015-10-01 As Jacob Zuma moves into the twilight years of his presidencies of both the African National Congress (ANC) and of South Africa, this book takes stock of the Zuma-led administration and its impact on the ANC. *Dominance and Decline: The ANC in the Time of Zuma* combines hard-hitting arguments with astute analysis. Susan Booysen shows how the ANC has become centred on the personage of Zuma and that its defence of his extremely flawed leadership undermines the party's capacity to govern competently and to protect its long-term future.

Following on from her first book *The African National Congress and the Regeneration of Power* 2011 Booysen delves deeper into the four faces of power that characterise the ANC. Her principal argument is that the state is failing as the president's interests increasingly supersede those of party and state. Organisationally the ANC has become a hegemon riven by factions as the internal blocs battle for core positions of power and control. Meanwhile the Zuma-controlled ANC has witnessed the implosion of the tripartite alliance and decimation of its youth women's and veterans leagues. Electorally the leading party has been ceding ground to increasingly assertive opposition parties. And on the policy front it is faltering through poor implementation and a regurgitation of old ideas. As Zuma's replacements start competing and succession politics take shape Booysen considers whether the ANC will recover from the damage wrought under Zuma's reign and attain its former glory. Ultimately she believes that while the damage is irrevocable the electorate may still reward the ANC for transcending the Zuma years. This is a must-have reference book on the development of the modern ANC. With rigour and incisiveness Booysen offers scholars and researchers a coherent framework for considering future patterns in the ANC and its hold on political power.

A Short History of South Africa Gail Nattrass, 2017-11-16 South Africa is popularly perceived as the most influential nation in Africa, a gateway to an entire continent for finance, trade and politics, and a crucial mediator in its neighbours' affairs. On the other hand, post-Apartheid dreams of progress and reform have in part collapsed into a morass of corruption, unemployment and criminal violence. *A Short History of South Africa* is a brief general account of the history of this most complicated and fascinating country from the first evidence of hominid existence to the wars of the 18th, 19th and 20th centuries that led to the establishment of modern South Africa, the horrors of Apartheid and the optimism following its collapse, as well as the prospects and challenges for the future. This readable and thorough account, illustrated with maps and photographs, is the culmination of a lifetime of researching and teaching the broad spectrum of South African history. Nattrass's passion for her subject shines through whether she is elucidating the reader on early humans in the cradle of humankind or describing the tumultuous twentieth-century processes that shaped the democracy that is South Africa today.
