Triplett,2006-10-05 This handbook compares and contrasts two methods employed in price indexes to adjust for quality change conventional quality adjustment methods and hedonic price indexes The latter are often used in price indexes for information and communication technology ICT products in several OECD countries as well as for measuring prices for some other goods and services notably housing The handbook aims to contribute to a better understanding of the merits and shortcomings of these methods and to provide an analytic basis for choosing among them A Practical Guide to Price Index and Hedonic Techniques Ana M. Aizcorbe,2014-06-12 This book provides an accessible guide to price index and hedonic techniques with a focus on how to best apply these techniques and interpret the resulting measures One goal of this book is to provide first hand experience at constructing these measures with guidance on practical issues such as what the ideal data would look like and how best to construct these measures when the data are less than ideal A related objective is to fill the wide gulf between the necessarily simplistic elementary treatments in textbooks and the very complex discussions found in the theoretical and empirical measurement literature Here the theoretical results are summarized in an intuitive way and their numerical importance is illustrated using data and results from existing studies Finally while the aim of much of the existing literature is to better understand official price indexes like the Consumer Price Index the emphasis here is more practical to provide the needed tools for individuals to apply these techniques on their own As new datasets become increasingly accessible tools like these will be needed to obtain summary price measures Indeed these techniques have been applied for years in antitrust cases that involve pricing where economic experts typically have access to large granular datasets *High Fidelity & Audiocraft* ,1986 Contains Records in review Control Engineering ,1967 Instrumentation and automatic control systems Hi Fi/stereo Review ,1986 73 for Radio Amateurs ,1985-07 **Instruments** ,1953 **SMARTLAB: You Build It** - Johnstone And Shar Levine,Clive Gifford,Leslie Johnstone,Shar Levine,SmartLab,2005-08 Take control Kids build the remote themselves and gain hands on experience with the science of light and energy Includes everything kids need to build a working remote control for use with home TV and VCR Kids build and program this universal remote to discover how light and energy make channel surfing
