Read the Manual and Information

Read the manual and information booklet, depending on model.

- #### Insert the Batteries
1. Remove the battery compartment cover.
 2. Insert the batteries, matching the (+) and (-) marks inside the battery compartment.
 3. Push the battery cover back into place.

When you are replacing batteries, try not to press any key after you've taken the old batteries out. Pressing any while replacing batteries causes the remote to lose the programming you've programmed. The unit will re-program the remote again.

- #### Battery Precautions
- Do not mix old and new batteries.
 - Do not mix alkaline, standard (non-rechargeable), or rechargeable (nickel-cadmium) batteries.
 - Always insert old, used, or worn batteries properly and upside or down of them in accordance with Local and National Regulations.

Battery Saver

Your universal remote control saves battery power by automatically turning off any key if pressed for more than 60 seconds. This saves your battery life should your remote get stuck in a place where the keys remain depressed, such as between your cushions.

Care and Maintenance

- Keep the remote dry. If it gets wet, wipe it dry immediately.
- Use and store the remote only in normal temperatures.
- Handle the remote gently and carefully. Don't drop it.
- Store the remote away from dust and dirt.
- Wipe the remote with a damp cloth occasionally to keep it looking new.
- Modifying or tampering with the remote's internal components, without authorization and in violation of warranty.
